

B Corp Certification - Disclosure Questionnaire Documentation

Disclosure Questionnaire category: Energy and Emissions Intensive industry

Updated as of: 12/09/2022

Taylor Smith Sustainable Construction Company is involved in the production or sale of products that are classified as energy and emission-intensive, meaning that they are more likely to have significant impacts on the environment based on their carbon emissions associated with their operations and their contribution to climate change. Certified B Corps are required to make transparent their involvement in such industries.

If you or someone you know is aware of any specific practices of this company related to their involvement in the sensitive industry that has had a negative impact, and that may constitute a violation of the B Corp standards, please contact us via our [public complaints procedure](#).

B Corp Certification - Disclosure Questionnaire Documentation

Disclosure Questionnaire category: Water Intensive industry

Updated as of: 12/09/2022

Taylor Smith Sustainable Construction Company is involved in the production or sale of products that are classified as water intensive, meaning that they are more likely to have significant impacts on the environment, such as water stress or depletion of local water sources if water use is not appropriately managed. Certified B Corps are required to make transparent their involvement in such industries.

If you or someone you know is aware of any specific practices of this company related to their involvement in the sensitive industry that have had a negative impact, and that may constitute a violation of the B Corp standards, please contact us via our [public complaints procedure](#).
