

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE

Company Name: Davidson Consulting France & Switzerland
 Date Submitted: November 15, 2021

Industries & Products	Yes	No

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: Davidson Consulting France & Switzerland

UPDATED AS OF: November 15, 2021

DISCLOSURE QUESTIONNAIRE CATEGORY	Other
TOPIC	Engineering Consulting Firms with Clients in the Defense Sector
SUMMARY OF ISSUE	Davidson is a management and engineering consulting company that provides services in various economic sectors. A small portion of its clients include companies that operate in the defense sector. In accordance with B Lab's standards for Engineering Consulting Companies with Clients in the Defense Sector, Davidson is required to disclose its involvement with clients in the defense sector as part of its B Corp Certification.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	In the 2021 fiscal year, Davidson had 16 ongoing projects for clients in the defense sector that represented 0.42% of the company's annual revenue.
IMPACT ON STAKEHOLDERS	<p>The types of defense projects that Davidson is currently involved in can be broadly classified into three categories: networks and transports, radars and simulation, and weapons. The services provided by Davidson to this sector are support activities (related to purchasing, quality, or IT), general project management, and engineering services.</p> <p>B Lab has identified engineering services provided to the defense sector as controversial due to the implications of such services being potentially used in ways that may harm others and/or be misused.</p>
RESOLUTION	Davidson Consulting has committed to exiting all projects in the "weapons" category by the end of the 2021 calendar year, and has committed to ceasing any projects for clients in the defense sector that would be considered "high severity" according to B Lab's standards. Any "low severity" engagements with clients in the defense sector will make up <5% of the company's overall revenue.
IMPLEMENTED MGT PRACTICES	Davidson has instituted an official customer screening policy to no longer work on weapons-related projects or other "high severity" projects related to the defense sector. All potential projects for clients in the defense sector are coded as such in Davidson's internal ERP system, which triggers an automatic review by the company's CEO in accordance with this policy. In 2022 the company will update its internal Ethics guide and its online test for employees to verify that teams are aware of this ban.
