Environment

This section asks about your environmental footprint to determine which questions are applicable later on in the assessment. It also identifies whether your company's product/service is designed to deliver a specific, material, positive environmental impact, and if so, opens the Environmental Impact Business Model section that is most applicable.

Environmental Business Model

Are your company's products/services or processes structured to restore or preserve the environment in any of the following ways? (Please note: the environmental impact of your day-to-day operations will be assessed in the remaining sections of the Environment Impact Area. This question is specifically asking about your products/services or innovative production processes.)

Answering affirmatively will opt you into additional sections of the B Impact Assessment with more specific questions about this Impact Business Model.

Description of Positive Environmental Product / Service Impact

How would you describe the positive outcome for the environment created by your product/service?

Arbonne is healthy living, inside and out. From the beginning, Arbonne has developed pure products with botanically based ingredients in scientifically tested formulas. We combine the best of science and nature to produce formulas that deliver incredible results. Healthy living inside and out includes what we choose to include in a formula — and what we don't. This list directly reflects Arbonne's rigorous screening of ingredients, our research, and enhanced safety requirements that ultimately result in safer ingredient choices and effective products in line with our pure, safe, beneficial™ philosophy and further defines what it means to be Certified Arbonne Clean™. We go above and beyond because we care. The advantage of Arbonne products is in our promise to deliver a holistic approach to healthy living, inside and out, with cleaner formulas for better skincare results and plant-powered nutrition. Being Certified Arbonne Clean™ begins with the ingredients that we use, taking the best from nature, and embracing the idea that healthy living starts from the inside out — what we choose to include in a product is just as important as what we choose to put on our skin or in our bodies. We choose carefully, so you can feel safe in the knowledge that we've done the research. Our NOT ALLOWED List™ includes more than 2,000 ingredients — nearly 1,400 from the European Union, plus several hundred more — that we won't use in any of our formulas across our categories including skincare, personal care, hair care, nutrition, and makeup. Key product certifications such as: Vegan-certified by The Vegan Society, Certified Gluten-Free, Certified Cruelty-free by PETA, Certified Kosher, Non-GMO Project Verified (23% of products have this certification), cruelty-free, vegan-certified. This matters as it reduces the number of chemicals in our products, reaching our customers. Our belief is the fewer the chemicals in our products it promotes healthy living and overall greater health benefits. Each material used in our formulations, cleaning and sanitation aids have been evaluated for toxicity. We promise to always: - Transparent and authentic - Continuously challenge the status quo through discovery and research - Constantly challenge every ingredient in every product, every single day

Environmental Product Benefits

In what way or ways does your product/service conserve the environment?

Please select ONE option per product line. You may select an additional option if your product line has two separate environmental attributes.

- ☐ Provides or is powered by renewable energy or cleaner-burning energy than market alternatives (e.g. solar panel manufacturers/installers, hybrid vehicles)
- ☐ Conserves or diverts resources (including energy, water, materials, etc.)
- ☐ Conserves or preserves the well-being of land and/or animals (e.g. land protection or reforestation services, sustainably harvested agricultural products)
- ☒ Reduces or is made of less toxic/hazardous substances (e.g. brownfield remediation services, organic certified food, non-toxic cleaners)
- ☐ Educates, measures, researches, or provides information to solve environmental problems (e.g. environmental consulting or auditing)
- ☐ None of the above

Supply Chain Water Management

How does your company track and manage the water footprint of your supply chain?

Only select practices if you track and manage the water footprint for at least 50% of your company suppliers (on a cost basis).

- ☒ We do not track the water footprint of our supply chain
- ☐ We have conducted an analysis of our value chain, including suppliers, services, and materials, to identify material areas of water usage
- ☐ We have targets for reducing water footprint through our supply chain
- ☐ We have seen a reduction of our water footprint in our supply chain in the past twelve months
- ☐ We have verified that all water use in supply chain is science-based and sustainable

Points Available: 0.80

Supply Chain Water Improvement

What practices has your company implemented for a majority of suppliers (on a cost basis) to reduce the water footprint of your supply chain?

- ☐ We collaborate with or require suppliers to collect data and report on water footprint
- ☐ We screen suppliers to fit good water management practices (e.g. individual supplier practices, materials and ingredients, locations in context of water scarcity)
- ☐ We provide support or resources for supply chain in adopting water management (e.g. online tools, applying questionnaires and surveys, collaborating in industrywide surveys)
- ☐ We audit and provide help to suppliers to complete corrective actions

Programs to Reduce End of Life Waste

Which of the following practices are in place to reduce waste to landfill after the usage of your product and/or its packaging?

- ☐ Company has a product/packaging reclamation and recycling program designed and implemented by the company or a third party
- ☒ Company has a product/packaging reclamation and reuse program designed and implemented by the company or a third party
- ☐ Company takes back similar products or packaging from other companies as part of its reclamation program
- ☒ Company includes information about their reclamation programs on product labels / packaging
- ☒ Company includes information about their reclamation programs in advertising campaigns
- ☐ Company has achieved circularity (no waste created) in its products and packaging
- ☐ Other
- ☐ None of the above

Points Earned: 0.37 of 0.62

Monitoring Hazardous Waste

How does your company monitor and manage your hazardous waste production?

- ☐ Company does not currently monitor and record emissions
- ☒ Company monitors and records emissions (no reduction targets)
- ☐ Company monitors emissions and has specific reduction targets

Tracking Chemicals in the Supply Chain

Does your company do any of the following to track chemicals in the supply chain for the majority of materials?

Please check all that apply.

- ☐ Do not track chemicals in the supply chain
- ☒ Require suppliers to disclose specified chemicals of concern
- ☒ Ask suppliers if they know all the chemical ingredients intentionally added to their product and all residuals of high concern present in the product (asking if they know only, not to provide the data to you)
- ☐ Require suppliers to provide chemical information to a third party
- ☐ Disclose all by-products, contaminants or trace materials to the public

Points Earned: 0.41 of 0.62

Chemical Reduction Methods

Which of the following environmentally preferred products have been purchased for the majority of your corporate facilities?

- ☒ Non-toxic janitorial products
- ☐ Unbleached / chlorine free paper products

Chemical Management

Does your company have a program in place to identify and eliminate potential chemicals and materials of concern in your product and/or process and identify and phase-in safer alternatives (e.g. chemical/material options with reduced toxicity)?

- ☐ Company has completed a study of all materials (including scarce metals and minerals) in product and chemicals to 1000ppm level
- ☐ Company has completed a study of all materials in product and chemicals to 100ppm level
- ☒ Company has undergone an evaluation of products and processes to identify potential toxic contaminants from production
- ☒ Company has identified specific chemicals of concern classes (e.g., carcinogens, mutagens, reproductive toxins, endocrine disruptors, persistent or bioaccumulative substances)
- ☒ Company has established a Restricted Substances List (RSL), has a positive screen or other decision process for chemicals
- ☒ Company has established metrics and goals for the reduction or elimination of chemicals of concern
- ☒ Company publicly discloses the chemicals and/or materials in your product (e.g., on a label, website, via 800 number for information, etc.)
- ☐ There are no potential chemicals or materials of concern in my industry
- ☐ None of the above

Points Earned: 0.62 of 0.62

Supply Chain Chemical Management

How does your company track and manage toxins or hazardous waste in your supply chain?

Only select practices if you track and manage toxins or hazardous waste for at least 50% of your company suppliers (on a cost basis).

- ☒ We don't track toxins or hazardous waste in our supply chain
- ☐ We have conducted an analysis of our value chain, including suppliers, services, and materials, to identify material risks of toxins and/or production of hazardous waste
- ☐ We have set targets for reducing toxins and hazardous waste in our supply chain
- ☐ We have verified that there are no harmful toxins or hazardous waste in our supply chain

Points Available: 0.62

Supply Chain Chemical Improvement

What practices has your company implemented for a majority of suppliers (on a cost basis) to reduce toxins or hazardous waste in your supply chain?

- ☒ We collaborate with or require suppliers to collect data and report on chemicals
- ☒ We screen or require suppliers to meet standards related to toxins or hazardous waste
- ☐ We provide support or resources to reduce toxins in the supply chain (e.g. online tools, applying questionnaires and surveys, collaborating in industrywide surveys)
- ☒ We audit and provide help to suppliers to complete corrective actions
- ☐ None of the above

Supply Chain Biodiversity Management

How does your company track and manage your supply chain's impact on biodiversity?

Only select practices if you track and manage the impact on biodiversity for at least 50% of your company suppliers (on a cost basis).

- ☒ We don't evaluate our supply chain impact on biodiversity
- ☐ We have conducted an analysis of our value chain, including suppliers, services, and materials, to identify material risks to biodiversity
- ☐ We set targets for reducing impact on biodiversity through our supply chain
- ☐ We have verified that our supply chain creates no (or positive) biodiversity impact

Points Available: 0.62

Supply Chain Biodiversity Improvement

What practices has your company implemented for a majority of suppliers (on a cost basis) to reduce your supply chain's impact on biodiversity?

- ☐ We collaborate with or require suppliers to collect data and report on biodiversity impact

Environmentally Innovative Manufacturing Process

- Impact Business Model

IMPACT BUSINESS MODELS

19.2

This IBM section is applicable if your company utilizes innovative manufacturing or distribution processes that significantly reduce your environmental footprint compared to past performance or industry benchmarks.

Environmentally Innovative Manufacturing Process Introduction

Are your manufacturing processes designed to be innovative by either (1) substantially reducing your environmental footprint compared to past performance, OR (2) having a significantly lower environmental footprint than the norms of your industry? (Please note: this question is specifically asking about your manufacturing processes, NOT the sustainability of your product ingredients, input materials, product design, or usage of your product. These practices are captured other sections of the Environment Impact Area.)

Your answers determine which future questions in the assessment are applicable to your company.

☒ Yes

☐ No

Points Available: 0.00

Manufacturing Environmental Management

Do you have an environmental management system that tracks the material aspects of your environmental impact (e.g. waste produced, energy or emissions data, water use, etc.) and includes objectives and targets to improve environmental impact over time?

Your answers determine which future questions in the assessment are applicable to your company.

☒ Yes

☐ No

Points Available: 0.00

Manufacturing Environmental Impact Benchmarks

Have you benchmarked or researched your environmental performance compared to peer companies or your industry in general?

Your answers determine which future questions in the assessment are applicable to your company.

☐ We have benchmarked quantitative environmental metrics to other similar companies or industries in order to compare our performance

☒ We have researched sustainability practices to determine best practices and identify how our practices compare to other companies in our industry

☐ No

Points Available: 0.00

Material Environmental Impacts In Industry

Which of the following are material environmental impacts of concern in the manufacturing process for your industry? (Please exclude environmental impact outside of your manufacturing process, such as input materials used, supply chain impact, or use of product).

- ☒ Waste production or usage of materials
- ☒ Water usage or water quality
- ☒ Chemical usage
- ☒ Energy usage or GHG emissions
- ☐ Other - please describe
- ☐ Don't Know
- ☐ Our industry doesn't have material environmental impacts

Points Available: 0.00

Focus of Environmental Performance

For which material environmental impacts have you implemented processes that substantially reduce the environmental footprint of your manufacturing?

- ☐ Waste production or usage of materials
- ☒ Water usage or water quality
- ☐ Chemical usage
- ☐ Energy usage or GHG emissions
- ☐ Other - please describe
- ☐ None of the above

Points Available: 0.00

Primary Environmental Management Practice

For those practices that you've selected above, which of the following is the primary method by which you've materially reduced the environmental footprint of your manufacturing?

- ☐ We have substantially reduced the amount of source material required for our product compared to industry norms
- ☐ We have implemented methods that include the recycling or re-use of at least 50% of materials
- ☐ We have a water recycling or closed-loop recycling system
- ☒ We have replaced a water-intensive process with a process that requires a significantly reduced amount of water usage
- ☐ We have substituted a chemical-intensive process with a process that requires a significantly reduced amount of chemicals used
- ☐ We have substituted an energy-intensive process with a process that requires little to no energy
- ☐ None of the above

Points Earned: 19.20 of 19.20

Other Environmental Management Practices

Beyond your primary method indicated above, which other practices do you also have in place?

Only select practices that apply to the manufacturing process for a majority of your products (on a revenue basis).

- ☐ We have substantially reduced the amount of source material required for our product compared to industry norms
- ☐ We have implemented methods that include the recycling or re-use of at least 50% of materials
- ☐ We have a water recycling or closed-loop recycling system
- ☐ We have replaced a water-intensive process with a process that requires a significantly reduced amount of water usage
- ☐ We have implemented a water treatment system that treats all waste water to return it to the water table at a quality as high as the water was received
- ☐ We have substituted a chemical-intensive process with a process that requires a significantly reduced amount of chemicals used
- ☐ We have substituted an energy-intensive process with a process that requires little to no energy
- ☐ We have implemented a program to use onsite renewable energy for our process
- ☒ None of the above

Points Available: 9.60

Environmental Management Outcomes

What results has your company seen from your environmentally-focused manufacturing processes?

- ☐ We have achieved carbon neutrality
- ☐ We have achieved zero waste or a closed loop material process
- ☐ We can confirm that water is used only in accordance with the local watershed needs
- ☐ We have eliminated all harmful chemicals from our manufacturing process
- ☒ None of the above

This IBM section is applicable if your company's products/services reduce or remediate toxins or pollution (e.g. organic certified products, non-toxic cleaners, non-GMO verified products)

Toxin / Pollution Reduction Description

Which of the following product or service descriptions apply?

Your answer to this unscored question is combined with other answers to automatically calculate your score in this section of the assessment.

- ☒ Product minimizes need of toxic chemicals compared to market alternatives (e.g. non-GMO verified products in jurisdictions where this is not legally required, Nontoxic Certified Red List Evaluation)
- ☐ Product/services use less toxic/hazardous chemicals or materials than market alternatives (e.g. certified non-toxic cleaners, organic certified food)
- ☐ Product/service remediates environmental damage after discharges to air, land or water (e.g. brownfield remediation, oil spill clean-up)
- ☐ Product/service directly prevents pollution or hazardous discharge (e.g. pollution management technologies)
- ☐ These descriptions do not apply to our company's product/service (Skip the remainder of this section)

Innovative Toxin Reduction / Remediation

Is there something different or innovative about the company's basic product or service that has changed the industry? Is this something that is replicable, unique at the time that it was created, and that has been emulated by other organizations?

In 1980, when Arbonne’s Pure, Safe, Beneficial products were brought to the U.S., few, if any skincare brands in the country were botanically based and cruelty-free. Arbonne’s Founder had a passion for creating formulas that didn’t harm the environment (botanically based) or animals (formulated without animal products or byproducts and not tested on animals) and this was an innovative concept at the time. Since then, companies around the globe have created botanically based and cruelty-free formulas but Arbonne was a pioneer in this country, in 1980. We are proud to share that 23% of our products sold are non GMO certified, supporting our commitment to creating botanically based and environmentally friendly wellness products.

This section identifies whether your company's product/service is designed to deliver a specific, material, positive impact for its customers (beyond the value normally provided from goods or services), and if so, opens the Customer Impact Business Model section that is most applicable.

Customer Impact Business Model Introduction

Do any of your company's products/services address a social or economic problem for your customers and/or their beneficiaries?

Your answers determine which future questions in the assessment are applicable to your company.

☒ Yes

☐ No

Points Available: 0.00

Customer Focus of Product or Service

Is the social or economic problem addressed by your product/service one that is faced directly by your customers and/or your clients' beneficiaries?

If you answer “No” here, be sure to revisit the Environment and/or Community sections to ensure your business model impact is appropriately captured.

☒ Yes

☐ No, customers support in our ability to produce a positive social/economic impact, but the primary beneficiaries are other stakeholders (i.e. we donate to charities based on sales to customers, we sell fair trade products to our customers, we sell environmentally beneficial products to our customers)

Points Available: 0.00

Positive Impact of Product/Service

How would you describe the positive outcome for customers created by your product/service?

Arbonne provides the tools and resources to enable entrepreneurship so people can earn a modest supplemental income on their time and at their pace. Independent Consultants can transform their careers, their lives ... themselves. Our business model enables people to manage and grow their business through the Company's training, resources and products. The supplemental income generated through the business enables people to be present for their children, aging parents, themselves on their own schedule and at rate that makes sense for them. The business model allows our Independent Consultants to engage in a supportive community of like minded individuals, as well as the opportunity for personal development in the form of public speaking, leadership skills, and improved self-confidence.

Beneficial Product Type

Which of the following most closely matches the outcome and/or problem solved for your customers as defined above?

Only select the ONE most relevant option for each product line. This will guide you to a series of questions specific to the type of impact you indicate you are creating.

- ☐ Access to products/services that fulfill basic human needs for individuals without prior access (e.g. providers of electricity or clean drinking water to rural poor communities, affordable housing projects, waste and sanitation systems or disposal)
- ☒ Improved or maintained health and wellness (e.g. medical equipment, medical services and medicines, preventative health services or products, healthy living products, exercise and sporting products, prescription eyeglasses)
- ☐ Improved education or skills development (e.g. schools, textbooks, tutoring services, career leadership training, education tools, games and software)
- ☐ Increased economic opportunity for underserved groups (e.g. financial or insurance services or benefits consulting for the underserved, new mechanisms to connect products to market)
- ☐ Increased operational success or capital for purpose driven or underserved enterprises (e.g. impact investing or fundraising platforms, nonprofit accounting services)
- ☐ Increased social and/or environmental impact for businesses or other organizations (e.g. sustainability consulting)

Arbonne International LLC is a direct selling company that offers independent workers the opportunity to sell products to customers and teach and train a team to do the same. Independent workers are compensated via a multi-level marketing compensation model whereby they are paid for their sales to customers as well as product sales by their team members. Arbonne recognizes that the business model is subject to criticism and has in place various measures designed to ensure that its business is compliant, sustainable, and provides an opportunity for anyone who is interested in selling innovative personal health and wellness products and an opportunity to earn supplemental income. Individuals interested in participating can access on-demand our public disclosure document available at [Earnings.Arbonne.com](https://earnings.arbonne.com). Arbonne sells B to B, through our consultants, and B to C, for our preferred Clients. Arbonne deeply believes in fostering a culture of compliance and has in place the following practices to protect consumers, protect the general public, and protect those who choose to try the Arbonne business opportunity: Actively support and promote independent oversight via the Council of Better Business Bureaus Direct Selling Self-Regulatory Initiative at <https://bbbprograms.org/programs/DSSRC/> Active Member of Direct Selling Association at www.dsa.org and adhere to the DSA Code of Ethics <https://www.dsa.org/consumerprotection/code-of-ethics> available to the public at <https://www.arbonne.com/discover/legal/code-of-ethics.shtml>. Members of the public can file a complaint directly with Arbonne or directly with DSA, available on the Arbonne website (scroll to the bottom of the page at "contact the DSA directly") at <https://www.arbonne.com/pws/homeoffice/tabs/home.aspx>. Member of the DSA Code of Ethics Communication Initiative – reserved for those member companies who exceed minimum requirements to promote adherence to the DSA Code of Ethics. <https://www.dsa.org/consumerprotection/code-of-ethics/code-communications-initiative> Member of the Direct Selling Self-Regulatory Council, a council for the Better Business Bureau National Programs, who provides impartial monitoring, enforcement, and dispute resolution regarding product claims or income representations (including lifestyle claims) disseminated by direct selling companies and their sales force members. This program provides a robust challenge process that also includes the opportunity for a company to appeal a decision.. Actively monitor compliance and engage the sales field via the Business Ethics Standards Team or BEST at <https://BEST.arbonne.com/> and <https://www.facebook.com/arbonneBEST/>, one of the few industry-wide compliance teams actively engaging with an independent sales force on social media. Effective in 2017, the Arbonne BEST team also adopted confidential e-tools to monitor sales field product and business claims made online and via social media. Actively train on compliance and good business practices at our largest events attended by our sales field: Our multi-national annual Global Training Conference, our annual Leadership Training Conference, and compliance training at our leader-to-be conference. Arbonne has a Buy-Back Policy and a Return Policy, published on our website and printed on each packing slip: <https://www.arbonne.com/us/en/contact-us7> (scroll to "Return Policies" at the bottom of the page) and includes: a 100% product return policy for any product purchased within the past 12 months, should a member of the sales field resign or change their mind and wish to return unused product and a 90 day no-questions-asked product guarantee. The BEST team also promulgates Arbonne's own Code of Ethics that every member of the Arbonne sales field is required to adhere to as a condition to selling Arbonne products, and is based on the Golden Rule of treating others as you wish to be treated.

Litigation and Arbitration - As is typical with any large, multi-national organization, Arbonne is subject to litigation in the ordinary course of business operations. At any given time, Arbonne has various litigation matters either ongoing, settled or resolved. Please note California Law does not allow for confidentiality, NDAs in settlement agreements. Data Breaches - Arbonne faced three data breaches through a partner organization. All impacted parties were immediately notified, with an offering for appropriate corrective action through monitoring services or other support services. Additional training and monitoring measures were introduced as a result of the incident. In a separate incident, Arbonne was not made aware of any actual misuse of information as a result of the incident. Unauthorized access was stopped immediately and, pursuant to applicable law in every jurisdiction in which we do business, notifications and corrective measures were undertaken. Additional security measures and monitoring have been adopted as a result of the incident. Arbonne received no fines or penalties for this and all government inquiries were successfully closed. Arbonne has worked with the vendor to ensure validation of PCI Compliance. Recalls - In 2020 the company initiated a voluntary product recall of the Arbonne Shea Butter Body Wash, Gel Douche because standard safety testing of the most recent order of goods revealed the presence of a common type of bacteria. While all products made prior to that date passed safety testing, out of an abundance of caution and in compliance with our quality standards, we made the decision to initiate a worldwide recall of this particular lot. The recall was isolated to the body wash product and no other products were affected. There were no reports of any injury relating to the product. Arbonne notified all of those who purchased the product pursuant to applicable regulatory guidelines in each country where the product was sold, and the recall was successfully closed in coordination with local regulatory and government officials in each of those countries.
