Prescient Healthcare Group

Disclosure Report

Date Submitted: January 21st, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	The company serves clients in Controversial Industries
Summary of Issue	Prescient Healthcare Group is a company that specializes in supporting decision-making that shapes pharmaceutical companies' clinical, medical, and commercial strategies. Their services rely on the pharmaceutical industry. The company does not engage in lobbying or manufacturing activities within the pharmaceutical industry.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	100% of the client revenue has been from clients in the Pharmaceuticals industry during 2022
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact on stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their effect is aimed at decreasing the industry's negative impacts. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue. New standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company does not have a specific stance on working with clients in controversial industries, nor do they have established policies or practices for conducting due diligence on clients they work with to ensure that the services provided by the company are not used for harming people and the environment. The company has implemented formal anti-bribery and whistleblowing policies that are supported by regular training, as well as a Code of Ethics and Conduct. The company screens its employees against FDA and other federal debarment and exclusion lists, and they have a dedicated Compliance function to address both internal and external queries and concerns.

	The company does not engage in lobbying, advocacy, or political activities, and donations to political organizations are prohibited.
