Disclosure Report

Date Submitted: December 12th, 2025

---

## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

**This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company**

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Alcohol

This Bache-Gabrielsen SAS is involved in the production or sale of alcohol. Alcohol may have a negative impact on the health and well-being of individuals and their communities, particularly in cases of over-consumption, addiction, or under-age drinking. Certified B Corps are required to make transparent their involvement in such industries.

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Energy and Emissions Intensive industry

This Bache-Gabrielsen SAS is involved in the production/sale of products, or is part of an industry that can potentially be classified as energy and emission-intensive, meaning that they are more likely to have significant impacts on the environment based on their carbon emissions associated with their operations and their contribution to climate change. Certified B Corps are required to make transparent their involvement in such activities or industries.

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Monoculture

This Bache-Gabrielsen SAS is involved in activities that could affect local biodiversity, meaning that they are more likely to have significant impacts on the environment given its interference with the balance of local fauna and flora. Certified B Corps are required to make transparent their involvement in such practices.

---

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Water Intensive industry

This Bache-Gabrielsen SAS is involved in the production/sale of products, or is part of an industry that can potentially be classified as water intensive, meaning that they are more likely to have significant impacts on the environment, such as water stress or depletion of local water sources if water use is not appropriately managed. Certified B Corps are required to make transparent their involvement in such activities or industries.

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Recalls

This Bache-Gabrielsen SAS reported conducting 0 mandatory and 1 voluntary recall in the past five years, representing 0.00012% of the company's products for the same period. When a product is recalled, various stakeholders such as customers, suppliers, investors, commercial partners, and local communities may face negative impacts, including health and safety risks, financial losses, loss of trust, damage to credibility, and other inconveniences. Certified B Corps must make their recalls transparent under their B Corp Profile.

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Suppliers located in Conflict Zones

<b>Topic</b>	Company has suppliers located in Conflict Zones
<b>Summary of Issue</b>	Bache-Gabrielsen SAS produces and sells alcoholic beverages. Two of its glass-bottle suppliers operate in multiple countries worldwide, including Ukraine and Russia, which are listed as conflict zones in <a href="#">FY25 List of Fragile and Conflict-affected Situations</a> and <a href="#">Global Conflict Tracker</a> . All purchase orders and payments made by Bache-Gabrielsen SAS are directed to the suppliers' French-registered entities.
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	In the last fiscal year, 2% of the company's purchases came from suppliers with operations in conflict zones.
<b>Impact on Stakeholder(s)</b>	<p>Business activities located in conflict zones are considered high-risk as they are more likely to cause or contribute to the conflict and/or sociopolitical instability.</p> <p>Countries classified as conflict zones are more likely to have a weak rule-of-law or a corrupt judicial system, which could undermine the effectiveness of operational grievance mechanisms for these businesses and their suppliers. In addition, the safety of the company's workers and other potential human rights violations are at risk.</p>
<b>Implemented Management Practices</b>	<p>A questionnaire is issued to all suppliers to assess any potential activities in conflict zones and their possible impacts. All suppliers are also required to sign the company's Code of Conduct. This Code of Conduct sets out the company's human and workers' rights expectations and includes an anti-corruption commitment. In addition, invoices and traceability sheets on the pallets include the country of production. Based on this information, the company has confirmed that none of the bottles purchased are produced in conflict zones.</p> <p>The company is considering implementing a supplier risk-mapping process related to conflict-zone exposure in the coming year to further strengthen the ethical dimension of its procurement policy.</p>
