

Global Prairie

Disclosure Report
Date Submitted: May 22nd, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Others - Disclosure Industries

Topic	Clients in Controversial Industries
Summary of Issue	Global Prairie is a digital marketing and advertising agency. The company has had clients from the Genetically Modified Organisms (GMO) and Pharmaceutical industries, which are deemed controversial industries by B Lab.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the fiscal year end of 2023, 3.6% of total revenue was generated through the clients in the GMO industry and 8% of revenue were generated through clients in the pharmaceutical industry.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	Although the company does not have a formal client screening policy, in determining potential clients, the company firstly evaluates if the potential client's purpose aligns with Global Prairie's values which emphasizes on creating an impactful and cultivating a healthier world. The company refrains from providing services that may harm people or the environment.
Report	Global Prairie 2022 Impact Report
Management Comments	It is important to Global Prairie that their client's purposes align with the Global Prairie values and mission to cultivate a healthier world. Global Prairie's client services related to the clients in the GMO and pharmaceutical industries align with the best interests of the client's customers and communities by helping diagnose, alleviate or cure diseases, improve the global food supply and contribute to an active, modern lifestyle.
