YEVER

Disclosure Report

Date Submitted: April 22nd, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Issue Date	2022
Topic	Company serves clients in Controversial Industries - Fossil Fuel (coal, oil sands).
Summary of Issue	Yever provided service to a supermajor in Myanmar to structure and implement their aim to financially support various projects working on human rights in Myanmar.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	5% in FY22, 29.7% in FY21, 29.5% FY20 and 22.7% FY19 company's revenue has been from serving clients in the controversial industry.
Impact on Stakeholders	Companies that offer products/services to clients in controversial industries may be contributing to the controversial impact of those industries.
Implemented Management Practices	The company is no longer engaged with this client anymore, and they don't have any specific plan to work/engage with other companies in this industry either.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Operations and suppliers in Conflict Zones

Topic	Company operates and sources in Myanmar. The country is on the list of conflict-affected and high-risk areas under Regulation (EU) 2017/821 and on the list of fragile and conflict-affected countries: FCS List Fiscal Year 2024
Summary of Issue	Since 2021, the humanitarian situation in which Yver operates has deteriorated due to increased conflict within the country. Yever provides corporate consulting services to clients located in Myanmar. The company operates mainly in Yangon, the largest city in Myanmar.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the last fiscal year, 100% of the company's revenue came from operations in Myanmar and 69.6%% of expenses were from suppliers operating in Myanmar.
Impact on Stakeholders	Business activities located in conflict zones are considered high-risk as they are more likely to cause or contribute to the conflict and/or sociopolitical instability. Countries classified as conflict zones are more likely to have a weak rule-of-law or a corrupt judicial system, which could undermine the effectiveness of operational grievance mechanisms for these businesses and their suppliers. In addition, the safety of the company's workers and other potential human rights violations are at risk.
Implemented Management Practices	The company has a code of conduct which includes Anti-Bribery & Anti-Corruption policies distributed to all workers and collaborators. The company also conducts a risk assessment to its potential clients and business partners, including suppliers, to ensure that none of them are included in the sanction list. These assessments also include social and environmental performance. In addition, the company has policies in place that uphold the care and safety of the staff.
