Disclosure Report

Date Submitted: December 2nd, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.

Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other Disclosure Industries

Topic	Clients in Controversial and Ineligible Industries
Summary of Issue	LCP is a UK based consulting that has clients in the following industries: Mining, Pharmaceuticals, Nuclear Power or Radioactive Materials, Offensive Firearms/Weapons/Defense, Gambling, Tobacco, and Fossil Fuels. The company mainly offers services around the Pensions sector, but also derives revenue from other activities in the insurance, health, energy and sports sectors. The types of services/products offered to the above clients include: - Pensions advice services in relation to client's pensions arrangements for current and former employees; - Energy consultancy through LCP Delta aimed at helping clients in energy transition; - Research; - Data analytics, health analytics to the pharmaceutical industry with the goal of improving health outcomes. - Sale of technology products related to consulting
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In FY2023, 0.21% of the company's annual revenue was from clients in the Defense industry, 0.02% from clients in the Gambling industry, 0.57% from clients in the Mining industry, 0.02% from clients in Nuclear Power and Hazardous Materials industry, 0.01% from clients in the Pharmaceuticals industry and 0.06% from clients in the Tobacco industry.
Impact on Stakeholder(s)	Companies that work with clients in controversial industries can directly or indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. Companies offering certain types of services and products to controversial clients are required to have at minimum a grievance/complaints mechanism and a whistleblower protection policy.
Implemented Management Practices	B Lab has been able to verify that the company has the necessary mechanisms in place to manage the risks related to

	their business relationships with clients in controversial and ineligible industries, in line with B Lab's requirements (see link below). This includes: - A mechanism for internal and external stakeholders to raise grievances; - A policy that is shared with individuals who raise a grievance, containing information related to the grounds for accepting a grievance and how their grievance will be dealt with, as well as related timelines; - A Whistleblower Policy that establishes the company's commitment to protecting whistleblower identity as well as the processes and controls in place to protect stakeholders who raise grievances from any form of retaliation.
Report	Speak up: Share a concern or give feedback B Lab's Compliance Criteria for working with clients in controversial or ineligible industries
Management Comments	"LCP's purpose is to shape a more positive future through human expertise and advanced technology. When we work with clients in sectors identified by B Lab as controversial, our focus is on delivering advice that leads to positive outcomes — from securing members' retirements to supporting the energy transition and strengthening health systems."
