## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

## Disclosure Questionnaire Category: Suppliers in Conflict Zones

<b>Topic</b>	The company sources coffee from Ethiopia and Myanmar
<b>Summary of Issue</b>	Clipson & Sons uses coffee trader partners to source coffee from Ethiopia and Myanmar, which are listed as Conflict Zones in the <a href="#">List of Fragile and Conflict-affected Situations (World Bank, 2023)</a> . The company does not deal directly in the physical sourcing and shipping of the coffee.
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	In the last fiscal year, the company reported that 13% of its purchases were from coffee trader partners buying coffee from conflict zones, 12% was sourced from Ethiopia and 1% came from Myanmar.
<b>Impact on Stakeholders</b>	<p>As per the OECD, conflict zones are often characterized by widespread human rights abuses and violations of national or international law.</p> <p>The security of company workers who work in such areas could also be at risk.</p>
<b>Implemented Management Practices</b>	<p>Clipson &amp; Sons have implemented the following practices in the conflict zones from which they source:</p> <ul style="list-style-type: none"> <li>• It assesses each of its suppliers on a case-by-case basis (this may or may not include on-site visits, background checks, and interviews with stakeholders),</li> <li>• As for its employees' safety, the company shared that each origin trip is carefully considered and risk-assessed by the management team prior to any travel being undertaken.</li> </ul> <p>In Ethiopia, the company partners with a coffee trader in Ethiopia that requires coffee farmers to comply with their Code of Conduct, which is based on ETI base code founded on the conventions of the International Labour Organisation (ILO). It is a business with a focus on certified coffee. To help to adhere to this commitment, the coffee trade follows the OECD Due Diligence Guidance for Responsible Business Conduct.</p> <p>In Myanmar, the company's coffee suppliers are supported by the following development initiative:</p>

	<ul style="list-style-type: none"> <li>• <a href="#">Value Chain for Rural Development Project</a> (US Agency for International Development): "a five-year initiative focused on improving the prosperity of Myanmar's smallholder farmers in five agricultural commodities (ginger, soybeans, coffee, melons, and sesame.) The project's strategy focused on building inclusive market systems to deliver competitive products for sale to higher-value markets, resulting in higher incomes for farmers. The project supported inclusive agricultural growth and systemic transformation of Myanmar's agriculture sector through two closely integrated objectives: (1) Improved smallholder productivity and profitability; and (2) Increased market access and trade",</li> <li>• The company's partner (coffee trader) is focused on ensuring farmers – mainly smallholders in Ywangan – are fully involved and actually part of this trade. The partner makes a commitment to purchase coffee of an agreed quality at agreed volumes and prices via MCG, farmers and their families are as a result secure in the knowledge that they will receive remuneration and furthermore are resilient to endure and thrive during this period of conflict.</li> </ul>
