Disclosure Report

Date Submitted: December 31st, 2024

## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

### B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Others - Disclosure Industries

<b>Topic</b>	Clients in Controversial Industries
<b>Summary of Issue</b>	First Ascent Group is a UK based training company that has served clients operating in the Animal Products and Services, Alcohol, Pharmaceuticals, Whole Life Insurance Products, Nuclear Power or Hazardous Materials and Prisons industries. Services to these clients have included leadership, management and team development programs and training for staff, Emergenetics workshops and accreditations, as well as early careers development support to new employees. Services offered to these clients can be sold to clients in both controversial as well as non-controversial industries.
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	Clients in Controversial Industries represented the following % of the company's FY2023 revenue: <ul style="list-style-type: none"><li>• Clients operating in the Animal Products and Services industry- 0.42%</li><li>• Clients operating in the Alcohol Industry-0.96%</li><li>• Clients operating in the Pharmaceuticals industry 0.13%.</li><li>• Clients operating in the Whole Life Insurance Industry- 0.46%.</li><li>• Clients operating in the Nuclear Power or Hazardous Materials industry- 4.97%.</li><li>• Clients operating in the Prison Industry 0%.</li></ul> Engagement with this industry ended in 2021.
<b>Impact on Stakeholders</b>	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.</p>
<b>Implemented Management Practices</b>	First Ascent Group claims to only work with clients who seek to improve their ethical leadership and operational impact. For

	<p>clients in controversial industries, the company ensures their clients are aligned with their objectives and work with leaders to ensure their leadership approach is focused on ethical, responsible practices and cultural development.</p> <p>Prior to taking on a new client, First Ascent Group conducts research into their business and assesses whether they present a risk to the company's Code of Ethics and Practice Policy. Any clients considered to represent a potential risk are discussed at a Board Meeting prior to entering into contract with them.</p> <p>The First Ascent Group Code of Conduct and Ethical behaviours policies apply to all employees, associates, clients, suppliers and partners and includes:</p> <ul style="list-style-type: none"> <li>• An Anti-Bribery and Corruption policy;</li> <li>• Anti Money Laundering policy;</li> <li>• A recognition of the importance of fostering environmental awareness and adopting sustainable practices;</li> <li>• A Corporate Social Responsibility (CSR) commitment at a local, national and international level;</li> <li>• A Conflict of Interest policy;</li> <li>• An Anti-slavery and human trafficking policy.</li> </ul>
<b>Report</b>	<a href="#">First Ascent Group Code of Conduct</a>
<b>Management Comments</b>	<p>Extensive research, and our firm belief, indicates that to be successful in the long-term, leaders need to role model ethical behaviour and responsible practice. This can sometimes bring contradictory operational pressures for leaders, so our programmes develop their skills and judgement to make the right decisions, rather than the easy decisions. We develop leaders to make sustainable decisions within an aligned strategy, that prioritise good environmental, social and governance practice, as a foundation for long-term organisational success. This learning is delivered through group training sessions on these issues, often combined with individual executive coaching in a confidential environment, allowing leaders to explore these topics in an open and psychologically safe way. Each of our client leadership development programmes are designed to the specific situation of each client, so we link our approach to their values, operational context and future ambitions.</p>
