

## DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

**This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.**

## DISCLOSURE QUESTIONNAIRE

Company Name: Clover Sonoma  
 Date Submitted: 12/20/2019

| <b>SUMMARY OF ISSUE</b>                                                                  | Clover Sonoma is a dairy manufacturer and sources a large percentage of costs from dairy farms.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>SIZE/SCOPE OF ISSUE</b><br>(e.g. \$ financial implication, # of individuals affected) | 95% of Clover Sonoma's revenue comes from dairy-based products.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>IMPACT ON STAKEHOLDER(S)</b>                                                          | Large dairy operations can have adverse impacts on the environment (green house gas emissions due to high methane concentration) and animal welfare concerns due to large number of cows being confined or not able to express normal behaviors (farms with 2,000+ cows). Our producers are independent family farms that avoid these adverse impacts (our suppliers' average herd size is 400 cows and most cows have large acreage to roam on)                                                                                                                                                                                                                                                                                                                                                                             |
| <b>IMPLEMENTED MGT PRACTICES</b>                                                         | While Clover Sonoma does not own or operate any dairy farms directly, the company is the only fluid dairy producer that holds an AHA Certification -- all of our producers are American Humane Certified, ensuring that the cows producing our milk are well treated. AHA Certification is centered around the Five Freedoms of animal welfare: freedom from hunger and thirst; freedom from discomfort; freedom from pain, injury, and disease; freedom to express normal and natural behavior; and freedom from fear and distress. <a href="http://www.americanhumane.org">www.americanhumane.org</a> . Clover Sonoma also monitors our producers to ensure sound environmental practices through the Clover Promise of Excellence. <a href="http://www.cloversonoma.com/our-promise">www.cloversonoma.com/our-promise</a> |
