Disclosure Report

Date Submitted: July 31st, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Clients in Controversial Industries
Summary of Issue	<p>Adviso Conseil is a content and digital marketing firm.</p> <p>The company has had clients in the Alcohol, Fossil-Fuel (non-coal/oil sands), Gambling, Payday, Short Term, or High Interest Lending, Pharmaceuticals, Tobacco and Whole life Insurance Product industries which are deemed controversial by B Lab. The services provided to the clients relate to Customer Experiences, Content Marketing, and Data Analytics/Science.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	<p>In the fiscal year of 2024, the company had generated 0.88% of total revenue from clients in the alcohol industry, 0.22% from clients in the fossil-fuel industry and 0.16% from clients in the Whole life Insurance Product industry.</p> <p>The company had last provided services to clients in the gambling and tobacco industry in the year of 2023, and had generated 0.94% of total revenue from clients in the gambling industry and 0.09% of total revenue from clients in the tobacco industry.</p> <p>The company had last provided services to clients in the Payday, Short Term or High Interest Lending industry and pharmaceutical industry in the year of 2022, and had generated 0.22% and 0.06% of revenue respectively.</p>
Impact on Stakeholders	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.</p>
Implemented Management Practices	<p>Adviso Conseil currently does not have a formal position on working with sensitive industries or a policy to move away from them. However, the company has recently excluded certain</p>

	<p>industries such as pornography and tobacco from its potential client lists.</p> <p>The company uses its formal Decision-Making Filter in deciding to work with potential clients. The filter is used to assess the potential clients'/suppliers' commitment towards Environmental, social, and governance (ESG). If the business partners have an ESG policy in place in their organization and holds the same values as Adviso Conseil, the chances of being accepted as client/supplier is higher.</p> <p>As Adviso Conseil works mainly with regional small businesses, they are aware of the services provided by their potential clients and are therefore able to assess whether the services are being used in ways that could harm people or the environment.</p>
Management Comments	<p>Adviso has created a decision-making filter used by the Executive committee to take its various stakeholders into account when making decisions. The decision-making filter is a framework that enables Adviso to materialize its ESG commitment through a series of questions to be asked when making strategic decisions. These questions are based on the five evaluation criteria of the B Corp certification. This tool is the first step in ensuring that clients' choices are in line with Adviso's responsible values. Other initiatives will be rolled out over the next few years to improve Adviso's practices.</p>
