

## **DISCLOSURE MATERIALS**

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

## **B Corp Certification - Disclosure Questionnaire Documentation**

PROVIDED BY: Hawaiian Paddle Sport, LLC UPDATED AS OF: 07/21/2022

DISCLOSURE	Significant layoffs of >20% of workforce
QUESTIONNAIRE CATEGORY	· ·
ISSUE DATE	March 2020
TOPIC	Significant layoffs due to COVID-19.
SUMMARY OF ISSUE	Due to the impacts of Covid 19, the company implemented one round of layoffs in March 2020. The strict lockdown measures set by Hawaii to combat the pandemic resulted in a 14-day quarantine for anyone traveling to island. This heavily impacted the tourism industry on which the company depended. Only 'essential' businesses were able to remain open and a stay-at-home order was in place until June 2020. At the end of 2020, a COVID testing pilot program was trialed that allowed visitors to come to the state without quarantine if they showed a negative test results within 3 days of their flight to Hawaii. The visitor industry did not rebound until January of 2021.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	8 employees were laid off, representing 100% of the company's employees at that time.
IMPACT ON STAKEHOLDERS	Primary impact was loss of employment for affected employees.
IMPLEMENTED MGT PRACTICES	The company complied and sent emails to their employees on what aid was available in their country, state, and federal agencies and guidance on how to apply for those funds. As a result, the laid-off employees received unemployment and federal cares act money. The company's full-time year-round staff received unemployment benefits and some employees were able to work with a nonprofit organization that the company works with, Hawaii Land Trust. The company brought back the year-round staff for partial employment as soon as the stay-at-home orders were lifted in June 2020. However, there was no real work for them until December 2020 to January 2021. The employees continued to receive unemployment benefits the entire time and if they worked, they reported those hours, which were deducted from the state benefits.
