

Portafolio Verde

Disclosure Report
Date Submitted: July 17th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

Portafolio Verde reported having one material penalty filed against the company related to the following issues: taxes. This case had repercussions in the last five years.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Clients in Controversial Industries
Summary of Issue	Portafolio Verde is a consulting company that has had clients in the Mining, Fossil Fuel, Bottled Water Companies industry. The nature of the company's services with clients in these industries has been providing consulting services, all services can be sold to both controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The revenue from clients operating in the Mining industry represented 5.49% in FY23-24 The revenue from clients operating in the Fossil Fuel - Oil Sands, Coal industry represented 6.08% in FY23-24. The revenue from clients operating in the Fossil Fuel - Others industry represented 2.55% in FY21-22. The revenue from clients operating in the Bottled Water Companies industry represented 0% in FY23-24.
Impact on Stakeholder(s)	Companies that work with clients in controversial industries can indirectly increase the harmful impact on stakeholders of those businesses by enabling their business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. Currently, B Lab does not have specific requirements for companies with clients in this/these industries. However, Certified B Corps are required to make transparent their involvement with such clients. As B Lab continues to evolve its standards and due diligence approach for companies with Clients in Controversial Industries, the updated criteria will be shared with the company once they are finalized. B Lab recognizes that the company began its verification process prior to B Lab developing standards for Clients in Controversial Industries, and, therefore, the company will be required to meet the new standards by their next recertification. Additionally, as of the date of this disclosure, the company has committed to not working with any new companies or projects involved in the controversial industries in question.

Implemented Management Practices	Portafolio Verde has no positions on working with clients in sensitive industries, but they do not work with companies who are complicit in human rights violations, engage in child labor, forced labor, or are involved in corrupt practices. Portafolio Verde has a standardized procedure to carry out environmental, social and governance (ESG) due diligence. Within the framework of these processes, Portafolio Verde carries out evaluations (assessments) that allow them to identify opportunities for improvement. The company requires its clients to follow the principles established in its Integrity Framework and Ethical and Conduct Principles.
