

Coast of Maine Organic Products Inc.

Disclosure Report
Date Submitted: May 28th, 2026

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Animal Products and Services

Coast of Maine Organic Products Inc. is involved in the production or sale of animal products and services, meaning that they are more likely to have significant impacts on the environment and animal welfare. Certified B Corps are required to make transparent their involvement in such industries.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Energy and Emissions Intensive industry

Coast of Maine Organic Products Inc. is involved in the production/sale of products, or is part of an industry that can potentially be classified as energy and emission-intensive, meaning that they are more likely to have significant impacts on the environment based on their carbon emissions associated with their operations and their contribution to climate change. Certified B Corps are required to make transparent their involvement in such activities or industries.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Water Intensive industry

Coast of Maine Organic Products Inc. is involved in the production/sale of products, or is part of an industry that can potentially be classified as water intensive, meaning that they are more likely to have significant impacts on the environment, such as water stress or depletion of local water sources if water use is not appropriately managed. Certified B Corps are required to make transparent their involvement in such activities or industries.

Any party aware of specific company practices that have had a negative impact related to its involvement in these or other controversial industries, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Clients in Controversial and Ineligible Industries

Coast of Maine Organic Products Inc. is currently involved or has had involvement within the last five years in providing services and/or products to companies in the following industries considered controversial or ineligible by B Lab Global: Recreational Marijuana.

While products and services provided to these clients could serve only as commonplace goods and services, by serving these clients the company may be supporting these industries. B Lab recognizes that these industries potentially have negative impacts, therefore, Certified B Corps are required to make their involvement in such industries transparent.

Any party aware of specific company practices that have had a negative impact related to its involvement in these or other controversial industries, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Pesticides and fertilizers industry

The current B Corp Certification assesses a company's risk (potential negative impacts) separately from its positive impacts. B Lab's risk standards are additional minimum requirements that companies in controversial industries and/or practices must meet in order to be eligible for B Corp Certification under V1.6. Risk standards are a necessary method to maintain credibility, manage risk, and achieve the impact B Lab seeks in the world.

Coast of Maine Organic Products is directly involved in the Pesticides and fertilizers industry; an industry that B Lab requires additional minimum standards. During this assessment, it was confirmed that Coast of Maine Organic Products fully meets the minimum requirements for the Pesticides and fertilizers industry as outlined in the [Guidance for Eligibility Concerns and Minimum Requirements under V1.6](#) link.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

1. Intentional misrepresentation of practices, policies, and/or claimed outcomes during the [certification process](#), or
2. Breach of the core values articulated in our [Declaration of Interdependence](#) within the B Corp Community.
