

Barkley

Disclosure Report Date Submitted: January 23rd, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services		\checkmark

Other		\checkmark

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Торіс	Clients in Controversial Industries
Summary of Issue	The company is a marketing company in the United States, and has been serving clients in the Alcohol; Bottled Water; Charity Lotteries; For-Profit Higher Education; Water Utilities; Zoos, Aquariums, and Animal Parks industry by offering services such as creative ideas and advertising. Their services can also be sold to non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The revenue from clients in the alcohol industry is 0.26% in FY21-22. The revenue from clients in the bottled water industry is 0.22% in FY20-21. The revenue from clients in the charity lotteries industry is 0.18% in FY21-22. The revenue from clients in the for-profit higher education industry is 0.65% in FY21-22. The revenue from clients in the water utilities industry is 0.01% in FY21-22. The revenue from clients in the zoos, aquariums, and animal parks industry is 0.05% in FY21-22.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company currently does not have a position on working with companies in the controversial sector but they review every potential client before confirming a business partnership based on revenue, reputation, potential marketing spend and controversial sector. The company shares expectations for conducting business with their clients, including overall approach and philosophy to

	conducting responsible business as part of their new client onboarding process to align goals during onboarding.
Report	https://assets.ctfassets.net/arqv82dvpv8e/3Eb8masdXD1I7RZG gNJEsr/df6dc6bc8398f937c73365809a40dc4d/2022_Barkley_I mpact_Report.pdf
Management Comments	Barkley reviews every potential client before confirming a business partnership. The nature of the business partnership with each of the clients within a controversial industry is extremely important. For example, the company's previous bottled water client was developing innovative solutions to address the waste crisis that is associated with plastic water bottles by developing pure Aluminum packaging, which is infinitely recyclable.
