Disclosure Report

Date Submitted: August 4th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Report	How it works . More information on the topic "Suppliers in Conflict Zones" can be found on the About us , Our partners , and Fair Work Policy pages.
Management Comments	"Our mission as an organization is to operate with conflict-affected communities, which includes refugees, internally displaced persons, and those residing in post-conflict or active conflict areas. Currently we have operations in conflict zones such as Syria, Iraq, Afghanistan, Ukraine, and the DRC, and it's on our roadmap to also scale to other areas of conflict in order to support people who live there. Our support is in the form of access to livelihoods, payment methods, and upskilling activities for the most vulnerable who are at risk of unemployment and who may be forced to flee their home countries because of the combination of conflict and economic stagnation."
