- ☐ We have set performance targets for all identified material issues and measurements
- ☐ We measure the material social and environmental outcomes produced by our performance on our KPIs over time
- ☐ None of the above

Points Earned: 0.10 of 0.50

Identification of Material Issues

Based on the processes you have highlighted, what are the material issues that have been identified?

Americans and Canadians get over 20% of their daily sugar consumption from beverages. Excess sugar, caramel food coloring, phosphoric acid, and other artificial ingredients found in sugary drinks can lead to obesity, diabetes, cancer and other diseases. These diseases disproportionately affect communities of color. Zevia is a low-cost way to eliminate a significant percentage of sugar from daily diets. This helps all income levels. Since its inception, Zevia has sold 1 billion cans of soda and has eliminated 79,000 metric tons of sugar from consumers' diets, prevented 1 billion plastic bottles from going into landfills and oceans (we only use recyclable aluminum cans), and enabled millions in the diabetic and kidney disease community to consume soda which they would otherwise not be allowed to consume. Through only using aluminum cans, we estimate that we have saved over 30,000 metric tons of plastic. We track all of these metrics and tie them to performance.

Environment Impact Area Introduction

0.0

This section asks about your environmental footprint to determine which questions are applicable later on in the assessment. It also identifies whether your company's product/service is designed to deliver a specific, material, positive environmental impact, and if so, opens the Environmental Impact Business Model section that is most applicable.

Type of Facilities

What kind of facilities does your business primarily operate in?

Your answers determine which future questions in the assessment are applicable to your company.

- ☐ Company-owned office space
- ☒ Leased office space
- ☐ Co-working Space
- ☐ Virtual or home offices

Points Available: 0.00

Environmental Business Model

Are your company's products/services or processes structured to restore or preserve the environment in any of the following ways? (Please note: the environmental impact of your day-to-day operations will be assessed in the remaining sections of the Environment Impact Area. This question is specifically asking about your products/services or innovative production processes.)

Answering affirmatively will opt you into additional sections of the B Impact Assessment with more specific questions about this Impact Business Model.

- ☐ Through an innovative manufacturing, wholesale or agriculture process which is designed to significantly reduce environmental impact compared to typical practices for the industry
- ☒ Through a product or service that preserves, conserves, or restores the environment or resources
- ☐ None of the above

Points Available: 0.00

Description of Positive Environmental Product / Service Impact

How would you describe the positive outcome for the environment created by your product/service?

Unlike our competitors who use sugar to sweeten their products, we use stevia to sweeten our beverages. Stevia is a sustainable crop using only 20% of the agricultural resources of sugar. Zevia packs its products in packaging with the highest rates of recyclability like aluminum and cardboard. Zevia also subcontracts manufacturing in different locations around the markets served, this reduces the distance to markets and consumers and increases efficiencies in existing operations. Zevia's products are oriented to reduce the consumption of sugar thus reducing consumer risk to the effects of sugar consumption.

Points Available: 0.00

Environmental Product or Service Impact

Is the environmental impact you've described part of your products' or services' impact (excluding packaging), or is it a part of the way that your company operates?

Companies should earn revenue from the product or service that has an environmental impact. Please do not include pro bono efforts within this section.

- ☒ The impact is created by a revenue-generating product/service line (e.g. selling non-toxic cleaning products, sustainability consultancy)
- ☐ The impact is created by the company's daily operations (e.g. using non-toxic cleaning products in the company's headquarters) and not the core product/service

Points Available: 0.00

Environmental Product Benefits

In what way or ways does your product/service conserve the environment?

Please select ONE option per product line. You may select an additional option if your product line has two separate environmental attributes.

- ☐ Provides or is powered by renewable energy or cleaner-burning energy than market alternatives (e.g. solar panel manufacturers/installers, hybrid vehicles)
- ☒ Conserves or diverts resources (including energy, water, materials, etc.)
- ☐ Conserves or preserves the well-being of land and/or animals (e.g. land protection or reforestation services, sustainably harvested agricultural products)
- ☒ Reduces or is made of less toxic/hazardous substances (e.g. brownfield remediation services, organic certified food, non-toxic cleaners)
- ☐ Educates, measures, researches, or provides information to solve environmental problems (e.g. environmental consulting or auditing)
- ☐ None of the above

Points Available: 0.00

Resource Conservation Overview

Tell us more about how your product or service reduces energy, GHG emissions, water and/or waste.

Stevia is a sustainable crop using only 20% of the agricultural resources of sugar. This includes requiring 80% less water than sugar and 80% less land to grow than sugar. Stevia is also 200 times sweeter than sugar, so less of this ingredient is required in our products compared with sugar.

Points Available: 0.00

Direct Impact on Resource Conservation

Is resource conservation a direct positive environmental impact of your product or service?

☒ Yes

☐ No, it is an indirect result of one of the other answers selected in the question "Environmental Product Benefits"

Points Available: 0.00

Toxin / Pollution Reduction Overview

Tell us more about how your product or service reduces use of toxic or hazardous substances, prevents pollution or remediates discharges to air, land or water

Our products are Non-GMO verified, certified Kosher, organic, certified gluten-free, vegan, recyclable, zero-sugar, contain no artificial ingredients. Zevia has never used plastic bottles. Since its inception, Zevia has sold 1 billion cans of soda. That means that since our founding, we have prevented 1 billion plastic bottles from going into landfills and oceans (we only use recyclable aluminum cans).

Because our product has no artificial coloring, we have saved the environment and consumers from hundreds of pounds of artificial caramel color used by competitors that are linked to diseases including cancer. The manufacturing is located in different regions in the market reducing distance to markets and then need to burn more fossil fuels getting to market. We are measuring the climate footprint of our products to understand the impact of our activities better and gradually improve it.

Points Available: 0.00

Direct Impact on Less Toxic or Toxin Remediation

Is being less toxic or providing toxin remediation, beyond what is required by law, a direct positive environmental impact of your product or service?

Answering affirmatively will opt you into additional sections of the B Impact Assessment with more specific questions about this Impact Business Model.

☒ Yes
