

INFOMEDIA

Disclosure Report

Date Submitted: September 26th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒

Negative Social Impact	☐	☒
Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Clients in Controversial Industries
Summary of Issue	INFOMEDIA is a communication strategy services company that provides services to clients in controversial industries such as fossil fuel (others excluded coal and oil sand), mining, and pharmaceuticals. Their services can also be sold to non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	For the fiscal year 2022, the revenue generated from clients in controversial industries accounted for approximately 66% of the company's overall revenue: • 2.25% of the client revenue has been from clients in the fossil fuel (others excluded coal and oil sand) industry. • 12.58% of the client revenue has been from clients in the pharmaceutical industry. • 51.14% of the client revenue has been from clients in the mining industry.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company does not have a formal stance on working with clients in controversial industries. The company offers strategic consultancy and training services for companies in controversial industries. The company has stated that it has developed a lobbying/advocacy policy that is aligned with the Responsible Lobbying Framework. This policy sets out guidelines for interactions with third parties, including those involving public officials, to ensure that such activities are conducted ethically and transparently. The company has a

	whistleblowing channel, known as the Ethics Line, which is accessible to employees, associated collaborators and third parties. This channel is accessible via the email lineaetica.infomedia@tybabogados.com.ar . The policy includes a process to ensure policy compliance and has a Compliance Committee that oversees this. The policy includes training for their staff and third parties to ensure understanding and compliance with it.
Report	More information here
Management Comments	The company is focused on generating narratives and promoting transparent dialogue among stakeholders. Their philosophy is based on three of The Global Goals for Sustainable Development established by the United Nations - SDG 8, SDG 16, and SDG 4. These goals aim to promote inclusive and sustainable economic growth, employment, decent work for all, fair and peaceful societies, and inclusive, equitable, and quality education and lifelong learning opportunities. The company's services promote democratic dialogue and encourage stakeholder participation in public affairs. It ensures inclusive decision-making and advocates for non-discriminatory policies to support sustainable development. The company's communication strategies focus on corporate social responsibility and engaging with various societal actors to identify areas for positive impact.
