

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

DISCLOSURE QUESTIONNAIRE CATEGORY	Significant layoffs of >20% of workforce
ISSUE DATE	April 2020 - August 2020
TOPIC	Significant layoffs due to loss of revenue.
SUMMARY OF ISSUE	During the COVID-19 pandemic, Carpe Diem Education had to cancel our programs and bring students home. It couldn't afford to keep its entire staff resulting in layoffs.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	2 employees were laid off, representing approximately 25% of Carpe Diem Education's employees at that time.
IMPACT ON STAKEHOLDERS	Primary impact was loss of employment for affected employees.
IMPLEMENTED MGT PRACTICES	Both staff eventually decided to leave Portland and move to be closer to family. The first had already indicated he was going to leave for personal reasons and so the company ended his employment a few months earlier than planned. The second endured a bigger impact because it did result in him moving and changing employment. The company hopes to be able to hire him back (if he wants) in 2022. For both employees, the company paid health benefits for them through 2020. The first was given a severance package of 1 months pay. Both were eligible for unemployment benefits and the company worked with the Oregon unemployment office to make sure they got those as soon as possible. The company made decisions to try to maximise the income that each staff member would receive, either through itself, the PPP or unemployment. For the second layoff, the company had more time and was able to keep him on for a while but also let him know early that this could not be sustained.
RELATED INCIDENTS (YES/NO)	No
