Disclosure Report

Date Submitted: July 14th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Litigation, Arbitration & Penalties

Issue Date	2019 - 2024
Topic	Consumer Protection
Summary of Issue	In the last 5 years, Cool Running Events has had 14 litigation and arbitration cases involving customer injuries that occurred at their facilities and adjacent regions. In line with the inherent risks of outdoor and ice-based activities, the company occasionally faces personal injury claims. All incidents are investigated, and safety controls are continually upgraded. A minority of claims progress to litigation; many are withdrawn with no finding of negligence. No systemic safety issues have been identified.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The total financial value associated with these cases corresponds to less than 3% of the company's annual revenue and less than 0.01% of customers.
Impact on Stakeholders	These incidents primarily affected customers, resulting in minor to moderate injuries, and in some cases, led to legal claims. While some injuries were due to customer misuse or the inherent risks of activities like ice skating or navigating uneven terrain, others highlighted areas for operational review and safety enhancement.
Resolution	From the claims taken in the past 5 years, 36% are ongoing, 29% claims have gone dormant, 14% of claims are new, and 21% of claims are closed.
Management Practices	The company is continuously improving practices relating to operations and Health & Safety. The business has introduced a range of measures to strengthen safety and reduce the likelihood of injuries. These include upgrading equipment, increasing staff supervision during higher-risk activities, and refining pre-activity briefings so guests better understand environmental and activity-related hazards. Operational tweaks have been made at certain venues to minimise impact injuries and promote safe customer flow, while employees receive ongoing training to intervene promptly when risky behaviour arises. If an incident does occur, the company actively supports

	the affected individual and may contribute to medical expenses as a gesture of goodwill, underscoring its commitment to customer care and continuous risk management. No systemic safety issues have been identified, and an element of risk is inherent in the activities provided by the company.
Related Incidents (Yes/No)	No
