

## DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

**This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.**

## DISCLOSURE QUESTIONNAIRE

Company Name: Upstreet Craft Brewery  
 Date Submitted: 09/16/2021

Industries & Products	Yes	No
Please indicate if the company is involved in production of or trade in any the following. Select Yes for all options that apply.

## B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: Upstreet Craft Brewery

UPDATED AS OF: 09/16/2021

<b>DISCLOSURE QUESTIONNAIRE CATEGORY</b>	Environmentally Intensive Industries
<b>ISSUE DATE</b>	Ongoing
<b>TOPIC</b>	Water Intensive Industries
<b>SUMMARY OF ISSUE</b>	As a brewery, Upstreet Craft Brewery operates in an industry that is water intensive.
<b>SIZE/SCOPE OF ISSUE</b> (e.g. \$ financial implication, # of individuals affected)	In the previous fiscal year, 92% of Upstreet Craft Brewery revenue was earned from the sale of alcohol products.
<b>IMPACT ON STAKEHOLDERS</b>	As a water intensive industry, brewing poses risks such as water stress or depletion of local water sources if water use is not appropriately managed. The company utilises municipal water for their production processes and has a water intensity of 5.3 liters per liter of beer produced.
<b>IMPLEMENTED MGT PRACTICES</b>	<p>The company does not operate in water stressed areas and tracks their water usage on a quarterly basis on a L per L produced basis.</p> <p>The company compares their water intensity with that of the broader craft brewing industry and has determined that their water intensity is better than that of the industry. The company does not have any specific water usage reduction targets.</p> <p>The company also has been implementing technology upgrades such as using a CIP system (clean-in-place) since January 2021 which allows reduction of the amount of water used in a cleaning cycle by reusing water, and reduction of amount of cleaning agents that need to be used.</p>
