

## **DISCLOSURE MATERIALS**

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

## **DISCLOSURE QUESTIONNAIRE**

Company Name: Firsthand Foods Date Submitted: May 10, 2022

Industries & Products	Yes	No

## **B Corp Certification - Disclosure Questionnaire Documentation**

PROVIDED BY: Firsthand Foods UPDATED AS OF: May 10, 2022

Company sells and distributes meat and animal products. They pay processors to slaughter and fabricate meat, and sources >50% of their raw material expenses from animal products  Firsthand Foods sources from multiple small-scale family farmers who all raise their animals outdoors on pasture. The company prohibits the use of growth-promoting antibiotics or other growth hormones. Some of the meat, for example, the hogs are fed only non-GO feed that the farmers raise themselves. The meat sourced from these farms include pork, lamb and beef.  Acres differ by species but range from 10 to 1000. Beef cattle are stocked at approximately 1 cow/calf pair per 2.5 acres. Hog producers raise no more than 250 hogs a time or 500 hogs per year. The company sources from 35 farmers all of whom reside within the state of NC with the exception of one who is just over the border in Virginia.  Firsthand Foods visits their beef farms and observes animal behavior. Their lamb and pork farmers are audited by Animal Welfare Approved. The company also addresses any concerns that arise at their processing partners.  The company has not set any targets/KPIs on animal warefare, however they do work with Animal Welfare Approved (AWA) as a third party certifier for their pork and lamb.  The industry standard for animal production in the US is large-scale, confined feeding	DISCLOSURE	Animal Products and Services
