Disclosure Report

Date Submitted: July 8th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Company serves clients in Controversial Industries
Summary of Issue	Powwow Events Limited is a company that specializes in managing business events and works with clients in controversial industries such as Tax advisory services and Fossil Fuels and Hazardous materials. Their services are also sold to non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	For the fiscal year 2023, the revenue generated from clients in controversial industries accounted for around 20% of the company's overall revenue: - Clients operating in the Tax advisory services represented approximately 15%. - Clients operating in the and Fossil Fuels and Hazardous materials industry represented approximately 4%.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company does not currently have a stance on working with clients in controversial industries. The company reviews each potential client on a case-by-case basis. To initiate a relationship with potential clients, the company reviews their policies on forced labor, diversity, equity and inclusion, environment, corporate social responsibility, anti-harassment, and whistle-blowing.
Management Comments	The company's clients in the Fossil Fuels and Hazardous Materials industry provide storage solutions for various liquid bulk products such as biomass-derived petroleum, chemicals, and renewable energy sources. The company's clients in Tax advisory services are global businesses that offer tax advisory as one of their service streams.
