

Venn Accounts LTD

Disclosure Report Date Submitted: March 2nd, 2025

© B Lab 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Tax Advisory Services

Topic	Company provides tax-related advice to its clients
Summary of Issue	The company provides tax advice to UK based SMEs and individuals. The nature of the tax advice provided can range from tax planning including assistance with annual tax filings, analysis around charitable gifts and equity compensation plans.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The company does not generate revenue from tax advisory services.
Impact on Stakeholder(s)	Venn Accounts LTD's services are consistent with the principles that (1) the amount of overall taxes paid over time appropriately reflects the actual amount of income generated by the client, and (2) the amount of taxes paid over time in each jurisdiction appropriately reflects the actual operations of the client in that jurisdiction.
	Venn Accounts LTD has a publicly available transparent tax philosophy statement (link below) that reflects and confirms alignment with the B Corp principles. Since 2013 a General Anti-Abuse Rule has been in operation in the UK. This rule enables HMRC to further tackle abusive tax planning schemes. Due to the low probability of eventual success of such schemes and the high ethical standards of this firm, the company does not advise on tax schemes and considers them to be artificial or aggressive in nature.
	The company's staff undergo regular training to stay updated on UK tax laws, financial regulations, and best practices. Where necessary, the company implements a peer review process to enhance accuracy, compliance, and ethical integrity. Additionally, the company maintains policies that define service delivery standards, ensuring consistency and adherence to regulatory requirements.
	When providing recommendations to clients, the company prioritizes ethical and legally compliant financial advice. If a client refuses to accept the recommendations and instead chooses to pursue aggressive or unlawful tax strategies, the

	company takes the responsible step of disengaging from the relationship. Where appropriate, the company also fulfills our legal and regulatory obligations by raising a Suspicious Activity Report (SAR) with the relevant authorities. The company's engagement with government and tax regulators is based on open and transparent communication. The company maintains professional and cooperative relationships with HMRC and other regulatory bodies, ensuring that all interactions are conducted in good faith. In the event of a regulatory inquiry, the company responded fully and transparently, providing the necessary disclosures as required.
Report	Transparent tax philosophy statement - under Corporation Tax, item 2.1.7 (page 9)
