Disclosure Report

Date Submitted: June 7th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Others - Disclosure Industries

Disclosure Questionnaire Statement	
Topic	Clients in Controversial Industries
Summary of Issue	<p>Zoonou is a company within the Information, communication & technology field and is focused in the area of software testing. In the last five years, the company has had clients from the Gambling and Fossil-fuel (non coal/oil sands) industries, which are deemed controversial industries by B Lab. All of the company's services can be sold to both controversial as well as non-controversial industries.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	<p>In the fiscal year end of 2023, the company had generated 0.93% of its total revenue from clients in the fossil-fuel industry.</p> <p>The last service provided to clients in the gambling industry was in the year of 2022 and the company earned 0.5% of its total revenue from the industry.</p>
Impact on Stakeholders	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.</p>
Implemented Management Practices	<p>Zoonou does not have a specific formalized policy on working with clients in controversial industries. However any decisions on working with clients in these spaces would be evaluated by the company's Board of Directors.</p> <p>Since 2023, all new business enquiries are assessed by Zoonou's Managing Director and Marketing Director prior to engagement. The company has made the decision to discontinue working with clients in the gambling industry in 2023 since it conflicts with its core principles and long-term goals.</p>

The provision of software testing services should not cause harm to people or the environment. It should improve the quality of software provided by any businesses that the company chooses to work with.
