

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: PEAK DESIGN UPDATED AS OF: 03/31/2023

DISCLOSURE QUESTIONNAIRE CATEGORY	Litigation and Arbitration
ISSUE DATE	2020
TOPIC	Litigation Case
SUMMARY OF ISSUE	In 2020, Department of Fair Employment and Housing filed a complaint against Peak Design citing hostile work environment on behalf of an employee. According to PEAK DESIGN, several co-workers made jokes that the employee did not find funny. The employee's work performance also did not meet company standards either. As a result, the employee was fired and filed the suit shortly after with the Department of Fair Employment and Housing.
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	The case was ultimately settled for less than 1% of revenues for the reporting fiscal year
IMPACT ON STAKEHOLDERS	In this case, the plaintiff claims that they were sexually harassed in the workplace.
IMPLEMENTED MGT PRACTICES	Additional sexual harassment training, enlisted monitoring counsel, and updated employment handbooks were implemented as a result. The company has also implemented mandatory company-wide inclusive behaviors training to prevent incidents such as these. The company also has created better HR policies to concretely monitor and document employee work performance in the case that they must terminate someone for continually not meeting expectations.
