

ILUMEXICO

Disclosure Report
Date Submitted: July 8th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Energy and Emissions Intensive industry

ILUMEXICO is involved in the production/sale of products, or is part of an industry that can potentially be classified as energy and emission-intensive, meaning that they are more likely to have significant impacts on the environment based on their carbon emissions associated with their operations and their contribution to climate change. Certified B Corps are required to make transparent their involvement in such activities or industries.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Water Intensive industry

ILUMEXICO is involved in the production/sale of products, or is part of an industry that can potentially be classified as water intensive, meaning that they are more likely to have significant impacts on the environment, such as water stress or depletion of local water sources if water use is not appropriately managed. Certified B Corps are required to make transparent their involvement in such activities or industries.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Operations located in Conflict Zones

Topic	Company operates in Conflict Zones
Summary of Issue	<p>Iluméxico is a social enterprise that provides electricity to rural communities in Mexico by offering solar powered home systems to families without access to the electric grid. Mexico is listed as a conflict zone in Global Conflict Tracker. The company stated that operating in these areas is part of their commitment to energy equity, and their mission is to bring energy to the country's most vulnerable and marginalized communities. In addition, Ilumexico also operates in regions of the country where organized crime is absent and where levels of violence are very low or virtually nonexistent.</p> <p>Furthermore, between 2018 and 2020, Iluméxico participated in a federal government tender to provide solar systems to homes in marginalized rural areas. In response to the requirements established in this tender, they installed systems in several communities, many of which are located in regions currently considered conflict zones. Since that intervention, they have maintained operations in these areas, as users continue to pay for the service, and they are committed to continued care and monitoring.</p>
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the last fiscal year, 3.11% of the company's revenues came from the two most complex areas in Mexico.
Impact on Stakeholder(s)	<p>Business activities located in conflict zones are considered high-risk as they are more likely to cause or contribute to the conflict and/or sociopolitical instability.</p> <p>Countries classified as conflict zones are more likely to have a weak rule-of-law or a corrupt judicial system, which could undermine the effectiveness of operational grievance mechanisms for these businesses and their suppliers. In addition, the safety of the company's workers and other potential human rights violations are at risk.</p>
Implemented Management Practices	Iluméxico's staffs working in conflict zones are primarily made up of people from local communities, which allows for a better understanding of the context and strengthens trust with the

	population. The company has a mobility policy that establishes specific restrictions, such as avoiding travel during certain hours of the day, in order to reduce risks to the employees. They also maintain constant communication with the field teams and their families, allowing them to react quickly to events of violence in the area. In the event of confrontations or risky situations, they temporarily suspend activities in specific areas to ensure the safety of the team.
