

SA Law LLP

Disclosure Report

Date Submitted: August 14th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒

Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Clients in Controversial Industries
Summary of Issue	SA Law is a law firm. The company provides legal services to organisations and individuals related to commercial and residential property law, property litigation, construction litigation, commercial litigation, consumer litigation, employment law, divorce and family law, corporate law including the buying, selling, and reorganisation of organisations and groups of organisations, commercial law including commercial contracts, residential property conveyancing, wills, trusts and probate. The company has had clients in the Alcohol, Fossil Fuels (including coal, oil sands), Gambling, Industries at Risk of Human Rights Violations, Payday, Short Term, or High Interest Lending, Pharmaceuticals and Tobacco & Oral Nicotine industries which are deemed controversial by B Lab.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the fiscal year of 2024, the company had earned less than 1% of revenue from each of the client industries as mentioned above.
Impact on Stakeholder(s)	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	As of 2024, SA Law has ceased to provide its services to clients in the tobacco industry. The company currently does not have a formal position on working with sensitive industries or a policy to move away from them. However, they do not actively seek work from these industries. The company believes that all individuals and organisations deserve representation and they seek to balance the company's goals and commercial

reputation with their obligations as providers of legal services.
