## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Other - Clients in Controversial Industries

<b>Issue Date</b>	Ongoing Involvement
<b>Topic</b>	The firm acts for clients in industries which B Lab considers controversial.
<b>Summary of Issue</b>	Webb Henderson provides legal advice to clients with activities in fossil fuels and the pharmaceutical industry, which industries B Lab considers controversial.
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	Less than 5% of the client revenue has been from clients in the Fossil Fuel (coal, oil sands) industry Less than 5% of the client revenue has been from clients in the Pharmaceutical industry  The company charges a flat rate to its clients in controversial industries.
<b>Impact on Stakeholders</b>	B Lab has determined that fossil fuel and energy companies are disproportionately responsible for greenhouse gas emissions that contribute to climate change. Businesses that meet certain criteria satisfy B Lab's requirements, including committing to make progress towards transitioning to a fully carbon-free portfolio within specified timeframes. In relation to the pharmaceutical industry, B Lab is concerned that current business models have the potential of decision-making that brings benefit to companies while harming public health. While the firm does not engage in these industries directly itself, it does act for clients in the fossil fuel and pharmaceutical industries.
<b>Implemented Management Practices</b>	Webb Henderson has an ethics committee that considers (within the bounds of its professional duties, including pursuant to the Lawyers and Conveyancers Act (Lawyers: Conduct and Client Care) Rules 2008) whether it is appropriate to act for any new client – ESG factors are included in this consideration.
<b>Management Comments</b>	We are proud to work with clients in traditional industries that are committed to sustainability and contributing to the transformation of the global economy to benefit all people,

communities, and the planet. Our clients in the fossil fuels industry have publicly committed to supporting a lower carbon future. Our clients in the pharmaceutical industry are committed to providing access to high quality products which address global health needs and enhance people's lives.
