Mission & Engagement

4.5

Level of Impact Focus

Describe your company's approach to creating positive impact.

This is an unweighted question that will not impact your score and is asked only for research/benchmarking purposes.

Creating positive social or environmental impact is not a focus for our business

We occasionally think about the social and environmental impact of some aspects of our business, but not frequently.

We frequently consider our social and environmental impact, but it isn't a high priority in decision-making.

We consistently incorporate social and environmental impact into decision-making because we consider it important to the success and profitability of our business.

We treat our social and environmental impact as a primary measure of success for our business and prioritize it even in cases where it may not drive profitability.

Environment Impact Area Introduction

0.0

This section asks about your environmental footprint to determine which questions are applicable later on in the assessment. It also identifies whether your company's product/service is designed to deliver a specific, material, positive environmental impact, and if so, opens the Environmental Impact Business Model section that is most applicable.

Environmental Business Model

Are your company's products/services or processes structured to restore or preserve the environment in any of the following ways? (Please note: the environmental impact of your day-to-day operations will be assessed in the remaining sections of the Environment Impact Area. This question is specifically asking about your products/services or innovative production processes.)

Answering affirmatively will opt you into additional sections of the B Impact Assessment with more specific questions about this Impact Business Model.

Through an innovative manufacturing, wholesale or agriculture process which is designed to significantly reduce environmental
impact compared to typical practices for the industry

 $lue{lue}$ Through a product or service that preserves, conserves, or restores the environment or resources

☐ None of the above

Description of Positive Environmental Product / Service Impact

How would you describe the positive outcome for the environment created by your product/service?

All of our products are eco-friendly and made from recycled materials. Our plastic products are Certified Plastic Neutral through Repurpose Global, biodegradable, made from recycled LDPE, and fully recyclable. Our paper products are made from FSC-Certified Recycled Paper and biodegradable.

Points Available: 0.00

Environmental Product or Service Impact

Is the environmental impact you've described part of your products' or services' impact (excluding packaging), or is it a part of the way that your company operates?

Companies should earn revenue from the product or service that has an environmental impact. Please do not include pro bono efforts within this section.

• The impact is created by a revenue-generating product/service line (e.g. selling non-toxic cleaning products, sustainability consultancy)

The impact is created by the company's daily operations (e.g. using non-toxic cleaning products in the company's headquarters) and not the core product/service

Points Available: 0.00

Environmental Product Benefits

In what way or ways does your product/service conserve the environment?

Please select ONE option per product line. You may select an additional option if your product line has two separate environmental attributes.

Provides or is powered by renewable energy or cleaner-burning energy than market alternatives (e.g. solar panel
manufacturers/installers, hybrid vehicles)
✓ Conserves or diverts resources (including energy, water, materials, etc.)
Conserves or preserves the well-being of land and/or animals (e.g. land protection or reforestation services, sustainably harvested
agricultural products)
Reduces or is made of less toxic/hazardous substances (e.g. brownfield remediation services, organic certified food, non-toxic
cleaners)
Educates, measures, researches, or provides information to solve environmental problems (e.g. environmental consulting or
auditing)
☐ None of the above

Resource Conservation Overview

Tell us more about how your product or service reduces energy, GHG emissions, water and/or waste.

All of our custom products made printed on-demand, which helps to reduce wastage and excess inventory. Print & Pack uses GREENGUARD Gold Certified ink on all digitally printed poly mailers. The GREENGUARD certification is granted to products that meet some of the world's most rigorous chemical emissions standards and are screened for more than 360 volatile organic compounds (VOCs) known to pollute indoor air. The GREENGUARD Gold standard helps to reduce indoor air pollution and risk of chemical exposure by requiring lower total VOC emission levels so that products are acceptable for use in sensitive indoor environments.
