

## DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

**This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.**

## DISCLOSURE QUESTIONNAIRE

Company Name: Emma Bridgewater  
 Date Submitted: 12/07/2021

## B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY:

Emma Bridgewater

UPDATED AS OF:

12/07/2021

|  |   |
|--|---|
| <b>DISCLOSURE QUESTIONNAIRE CATEGORY</b>   | Environmentally Intensive Industries  |
| <b>TOPIC</b>   | Energy and Emissions Intensive Industries   |
| <b>SUMMARY OF ISSUE</b>  | As a manufacturer of pottery products, Emma Bridgewater operates in an industry in which energy and carbon emissions are material environmental issues. The company facilities have kilns powered by natural gas and electricity.   |
| <b>SIZE/SCOPE OF ISSUE</b><br>(e.g. \$ financial implication, # of individuals affected) | The majority of company revenue comes from pottery products.  |
| <b>IMPACT ON STAKEHOLDERS</b>  | The carbon emissions associated with their operations and their contribution to climate change are the potential impacts of their energy intensity.   |
| <b>IMPLEMENTED MGT PRACTICES</b>   | <p>"Emma Bridgewater currently has 2.64 tCO<sub>2</sub>e per tonne of production.</p> <p>The company has taken steps to manage energy use and carbon emissions including replacing all lighting with low-energy LED fittings; sourcing all electricity from renewable sources; replacing gas-fired water and heating boilers with energy-efficient ones; capturing and reusing waste heat from compressed air systems and kiln firing processes for heating and drying; and upgrading to more energy-efficient kilns.</p> <p>The company is in the process of setting carbon reduction targets for their operations related to reducing gas and electric usage; working with industry bodies looking at replacing natural gas with an alternative energy source; completing heat recovery, capture, and energy reduction usage schemes; and investing in energy-efficient cleaning equipment. "</p> |
