

Broker Andino

Disclosure Report

Date Submitted: October 13th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Disclosure Industries

Topic	Clients in Controversial Industries
Summary of Issue	Broker Andino is a security/insurance broker that has clients in the mining industry. The company does not manage the insurance services, they are only selling those products from distinct companies.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	7% of their revenue comes from selling life insurance for employees working in mining companies.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company measures social and environmental impact and makes decisions with consideration of the long-term consequences, the community and the environment. The company looks for projects to generate a positive impact. The company follows these principles: • Lead the regional insurance market, providing high quality services, and with a great social commitment, becoming the best Services company for Argentina. • Provide specialized advice on the protection of families and heritage, promoting a culture of prevention and working collaboratively with a positive impact on society and the environment. • Focus on the interests of workers, the community and the environment. The company treats all accounts the same way, and considers the mining sector as one more within the different companies that the companies they work with.

Report	Sustainability report: https://brokerandino.com.ar/2023/01/presentamos-nuestro-reporte-de-sustentabilidad-2022/
Management Comments	The company specializes in the sales of insurance, being market leaders in the public and private spheres of San Juan. They have identified how to provide essential support to work teams. Beyond providing necessary corporate insurance for businesses, the company offers a range of individual insurance designed to cover every member of the payroll, at more affordable rates than conventional individual policies. The company's position in the market allows them to offer highly convenient prices and conditions, supported by producers and advisors dedicated exclusively to meeting the needs of corporate clients. The company takes the time to get to know the collaborators of each organization in depth, understanding their daily dynamics and their specific needs. The company works to guarantee security for all industries, sectors, and services. They incorporate good practices and believe in partnering with clients to work to improve the socio-environmental impact of the City where they live and operate. The company invites all clients to participate as well as the community where they live to be part of projects in the community. Beyond providing insurance, the company strives to reduce risks through personalized training, adapted to the different coverages contracted. Whether it is road safety, health or any other related area, the company seeks to empower employees and organizations to face challenges with greater confidence.
