Disclosure Report

Date Submitted: May 20th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Energy and Emissions Intensive industry

Johann Jacobs Haus GmbH is involved in the production/sale of products, or is part of an industry that can potentially be classified as energy and emission-intensive, meaning that they are more likely to have significant impacts on the environment based on their carbon emissions associated with their operations and their contribution to climate change. Certified B Corps are required to make transparent their involvement in such activities or industries.

Any party aware of specific company practices that have had a negative impact related to their involvement in the sensitive industry, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Industries at Risk of Human Rights Violations

Topic	Forced labor and human rights violations are recognized as material issues in the coffee industry.
Summary of Issue	Johann Jacobs Haus GmbH is a German roast coffee company that sources its coffee from farmers in Vietnam, Brazil, Guatemala, Honduras, Kenya, and Colombia.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	100% of the company's coffee can be traced back to its original source.
Impact on Stakeholders	The coffee industry has a history of forced and child labor, which subjects workers to poor working conditions, low wages, and puts children at risk for human trafficking.
Implemented Management Practices	The company has specific criteria for purchasing coffee, which considers social factors such as transparency, fair wages, and the absence of child labour, as well as environmental factors including no deforestation, no monocultures, and minimal use of pesticides. The company has a code of conduct that includes an Anti-Corruption and Anti-Bribery policy, and suppliers must adhere to a code of conduct that outlines their policies on human rights, child labour, and forced labour. The company is dedicated to the Ten Principles of the UN Global Compact . Additionally, the company shares information about the origin of their coffee and the farmers involved, on their website for each coffee product.
