

GlobeScan Incorporated

Disclosure Report

Date Submitted: August 2nd, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Disclosure Industries

Topic	Clients in Controversial Industries
Summary of Issue	GlobeScan Incorporated is a Market Research and Advisory firm. The company has had clients in the alcohol, mining and gambling industries which are deemed controversial by B Lab. The services offered to the clients relate to Sustainability, Environmental, Social, & Governance (ESG), Corporate Affairs, Communications, Branding and Marketing & Insights. The advisory services provided are customized specifically designed and intended for each client based on their industry.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In the fiscal year of 2024, the company had generated 10.23% of total revenue from clients in the mining industry. The company had last provided services for the clients in the alcohol and gambling industry in the year of 2023, and had generated a total revenue of 0.84% from clients in the alcohol industry and 0.01% from clients in the gambling industry.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	GlobeScan has a policy in place that states: "When considering work with companies or associations in controversial industries GlobeScan will base its decisions on the extent to which we are working with change agents in the potential client and the level of influence the change agents have in the company to effect positive change."

	According to GlobeScan Incorporated the research and advisory service provided to the company's clients are intended to improve, refine and strengthen the clients' sustainability and corporate social responsibility programs and strategies, that could help reduce harm to people and the environment and effect positive change.
