

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: Devocion USA UPDATED AS OF: 09/08/2022

DISCLOSURE OURSTIONNAIRE CATEGORY ISSUE DATE March, 2020 TOPIC Significant layoffs occurred due to the COVID-19 pandemic outbreak in 2020. Devocion was forced to close its retail locations in March of 2020, which resulted in the layoff of all of the baristas and kitchen staff. The layoffs occurred as a direct result of the COVID-19 pandemic and the quarantine and closure requirements implemented as a result. The company had to close their retail locations due to COVID-19, which resulted in the layoff of the retail staff. Any employees that remained on the payroll took large pay cuts to keep the company from closing completely. With the aid of government funding and guidelines regarding COVID-19 the stores slowly re-opened several months later at a reduced capacity, which allowed the company to re-hire some of the workers back. SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected) IMPACT ON STAKEHOLDERS Primary impact was loss of employment for affected employees. To minimize the negative impact on employees the company did the following: - The company established a CoFundMe page which raised money for the laid-off employees. This money was distributed as a one-time aid to the affected employees. - Affected employees were informed on how to file for unemployment. No additional management practices implemented, as it was a one-time instance due to extraordinary circumstances. RELATED INCIDENTS (YES/NO) This was the only significant layoff that has occurred in Devocion's history.		
Significant layoffs occurred due to the COVID-19 pandemic outbreak in 2020. Devocion was forced to close its retail locations in March of 2020, which resulted in the layoff of all of the baristas and kitchen staff.
