

Cebra SpA

Disclosure Report
Date Submitted: August 2nd, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production of or trade in any of the following. Select Yes for all options that apply.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Clients in Controversial Industries

Topic	Clients in Controversial Industries
Summary of Issue	Cebra SpA provides digital marketing, digital transformation and website maintenance and has had clients operating in the Alcohol, Animal Products and Services, Debt Collection agencies in emerging markets, Payday, Short Term, or High Interest Lending, Pharmaceutical and Whole life Insurance product industries. The company's service includes enhancing the diffusion of the client's services through social media and websites as well as regulating the communication between the client and their audience. This service can be offered to both clients operating in controversial industries as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	In FY2022: • 0.24% of the company's revenue was derived from clients in the alcohol industry • 2.70% from clients in the Animal Products and Services Industry • 1.45% from clients in Debt collection agencies in emerging markets • 4.15% from clients in Payday, Short Term or High Interest Lending -10.08% from clients in the Pharmaceutical industry and • 2.06% from clients in the Whole life Insurance products.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	Cebra evaluates every client to prevent establishing commercial relationships with clients that go against their code of ethics or values. If a potential client operates in a sensitive industry and
