

Standing on Giants

Disclosure Report

Date Submitted: January 3rd, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial Industries

Topic	Company serves clients in Controversial Industries
Summary of Issue	Standing on Giants is a company that specializes in developing and managing brand-owned community solutions. Over the past five years, the company has provided its services to clients in the gambling and alcohol industries. For clients in the gambling sector, Standing on Giants has provided training on community management methodology to create a safe and healthy online environment. For clients in the Alcohol sector, Standing on Giants has offered consultancy services on setting up a community for the hospitality industry, as well as employee community management. Their services can also be sold to both controversial as well as non-controversial industries.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	0.82% of the company's FY2022 revenue has been from clients in the Alcohol industry. During FY2022 the company has not worked with clients in the gambling sector. In the last 5 years, 0.09% of client revenue has been from clients in the Gambling sector in FY2019.
Impact on Stakeholders	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry. B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
Implemented Management Practices	The company typically avoids working with clients in controversial industries. However, in cases where they decide to work with such clients, they focus on developing solutions that benefit both the client and their customers. The company has a process in place to ensure that the products or services sold to these clients are not used for harm. This process involves a review by the leadership team, which includes the CEO, Co-Founder, and Head of Client Partnership. All potential clients and projects are evaluated during this review, and any that may

	have a negative impact or create harm are not considered further in the procurement process.
