

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

ISSUE DATE	April 2023
TOPIC	Pending Class Action lawsuits made by stockholders related to false or misleading information about business.
SUMMARY OF ISSUE	On April 13, 2023, the company and some of its executive officers and directors were named as defendants in a securities class action lawsuit, captioned Shnyder v. Allbirds, Inc. et al., filed in the United States District Court for the Northern District of California. The lawsuit alleges that the company violated the U.S. securities laws by making materially false and/or misleading statements about their business, operations and prospects. On May 16, 2023, another securities class action lawsuit, captioned Delgado vs. Allbirds, Inc., et al, was filed in the United States District Court for the Northern District of California. The allegations are substantially similar to the Shnyder lawsuit and Allbirds expects the court to consolidate these matters into one case.

IMPACT ON STAKEHOLDERS	Financial loss of stock holders or owners of Allbirds Inc
RESOLUTION	Case still pending, lead plaintiff for class action lawsuit has not yet been selected. Members of purported class have 60 days to file a motion with the court to serve as lead plaintiff (public information available below)
IMPLEMENTED MGT PRACTICES	Allbirds has engaged outside counsel to defend against this action and is taking the appropriate internal actions to prepare for the litigation. The company has not yet implemented practices to mitigate this types of cases from arising in the future.
MANAGEMENT COMMENTS	As you are aware, these types of lawsuits are very common for publicly traded companies that experience a decrease in their stock price. Allbirds intends to vigorously defend against the lawsuit.
