changing the
PLANET DNA

since 2014

HERE TO SEE A BETTER WORLD

PARAFINA has a dream: to change the world. And the first step to change it is to change the way we see it. Consumption habits must evolve, but where others see the problem - waste - PARAFINA finds the solution: UPCYCLING. With this purpose, PARAFINA creates eco-friendly glasses with 100% recycled and organic materials, of high quality and design and accessible to all. Thanks to its commitment to innovation and education, when you choose PARAFINA you have the power to create a positive impact for the planet and people.

Join the change!

CORPORATE VIDEO

Triple Impact.

Choosing PARAFINA is choosing a brand with purpose. Triple Impact is its business model, based on 3 pillars:

1. SUSTAINABLE GROWTH
2. ENVIRONMENTAL IMPACT
3. SOCIAL IMPACT

The company certifies its triple bottom line through independent certification partners that enable the brand to implement continuous improvements in its processes and products. Powered by:

1. Sustainable growth

BCorp® Certification collects data from the companies it audits to determine their impact on the environment and society. In 2019 PARAFINA became the first Spanish eyewear brand to be BCorp certified, more than proving that by meeting the highest standards of social and environmental impact, we are one of the best companies for the world.

Certified

This company meets the highest standards of social and environmental impact

Corporation

As Certified B Corporations and leaders of this emerging economy, we believe:

- That we must be the change we seek in the world.
- That all business ought to be conducted as if people and place mattered.
- That, through their products, practices, and profits, businesses should aspire to do no harm and benefit all.

To do so requires that we act with the understanding that we are each dependent upon another and thus responsible for each other and future generations.

Certified

Corporation

Recognized by B Corp
in the **top 5% of the**
Best for the World

2. Environmental impact

100% Recycled and Organic Materials

PARAFINA produces its eyewear from 6 recycled or organic materials. By upcycling, it gives a second life to waste from landfills, helping to reduce pollution and solve the enormous amount of waste facing humanity. The production is made in China due to proximity to raw materials.

Since it was founded in 2014, PARAFINA has reused more than:

3.6 millions
Plastic bottles (PET)

543.053
Plastic bottles (HDPE)

87.772
Soda Cans

12.401
Rubber Tires

Our 2023 SUN collection has saved:

- 232,813.85 m3 of water compared to a conventional production.
- 237,397.33 kg of CO2 compared to conventional production.
- 8,019 bottles of bleach compared to conventional production.
- 2,944,268.69 MJ, equivalent to 169 MAD-NY flights by plane.

Powered by Bcome

Our recycled materials are certified by  and our impact by 

Rubber

Plastic HDPE

Bamboo

Our recycled materials

Plastic PET

Coffee

3. Social Impact

Social Project

Our commitment to change the world goes beyond our products. We promote education as the axis of change through the dissemination and awareness of our PARAFINA community, and by supporting quality education with our own PARAFINA Social Project.

We donate 5% of our sales to scholarships and school support projects so that children with few resources in a small suburb of Asunción (Paraguay) can have a better future.

80 children have already received scholarships this year - a total of 485 scholarships awarded since the beginning!

PARAFINA also finances a school support program run by 3 educators.

changing the PLANET DNA

since 2014

new

2024

Born in 2014, aiming to make the world a more sustainable place. It 's
in our DNA to transform the nature of things, everyday we transform
waste into sustainable eyewear.

As the sun illuminates the vibrant hues of the season, we invite you to
join us on this remarkable journey.
Together, we can turn the tide on environmental impact, one pair of
sunglasses at a time.

We are the DNA changers, and this is our manifesto.

new collection

Experience eyewear that not only enhances your style but also shapes a brighter future for our planet, welcome to our new sun 2024 collection.

Join us in in this trip to make the world a better place

As a novelty, SUN2024 Collection includes a new case that will match 3 of the designs of our Plastic HDPE cases, but in a soft finish, to make it more comfortable and easy to carry.

This new case is made from recycled plastic (PET) thread and neoprene (for the interior).

It includes a PARAFINA branded metal carabiner to allow customers to hang their glasses anywhere.

new packaging

Made from recycled materials

new

A modern design, made from recycled paper for a brighter future.

A perfect case to store your sunglasses, comfortable, practical and minimalist. PARAFINA evolves into a fashion brand with a purpose, and that is why through this design we reflect our fashion side and also our ecological heart by using materials that are kind to the planet. Each of these boxes is made with recycled paper.

With a very special pencil.

That can be planted once used and that in turn symbolizes education and our Social Project.
