Disclosure Report

Date Submitted: March 14th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Significant layoffs

Issue Date	September, 2022
Topic	Significant layoffs due to financial performance
Summary of Issue	The root cause of the layoff in 2022 was financial performance and the need to reduce overhead in order to remain a viable business. Covid was a difficult time for the business with revenues cut in half and the company needed to make changes which included a reduction to their workforce.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	4 employees were laid off, representing 21% of the company's employees at that time.
Impact on Stakeholder(s)	The primary impact was loss of employment for affected employees.
Implemented Management Practices	The company offered resources and assistance to help employees find new employment. Due to the financial constraints of the company, financial support was not provided, but all employees qualified for unemployment benefits.
Related Incidents (Yes/No)	One situation with significant layoffs, occurring in September, 2022.
