

Rotorua Canopy Tours Limited

Disclosure Report

Date Submitted: November 9th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Facilities located in sensitive ecosystems

Topic	The company offers a range of outdoor activities such as ziplining and guided walks through the temperate forest of Okohiriki Ngahere in New Zealand.
Summary of Issue	The Okohiriki Ngahere is an endemic native forest that houses various sensitive ecosystems and native flora and fauna. These include temperate forests, understory ground layers, ancient volcanic rocks, and epiphytic ecosystems. Additionally, this forest is home to several endemic species that are at risk and have been included in New Zealand's threatened species list. These species are protected by the government to ensure their survival and continued existence.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	99% of the company's revenue is generated by conducting ziplining and guided walks on 50 hectares of the Okohiriki Ngahere Forest.
Impact on Stakeholders	The flora and fauna of this area are often under threat. Some of the potential risks associated with the company's activities include littering and interrupting the vegetation. However, the company is committed to minimizing its impact on the ecosystem and avoiding any negative impact.
Implemented Management Practices	<p>The company has designed their tours in a way that has the least impact on the vegetation and ecosystem. For instance, zipline lines are constructed in a manner that does not harm the trees or interrupt vegetation. The company provides guidelines to their clients to ensure a responsible visit, such as staying on designated pathways, refraining from feeding the wildlife, and avoiding the use of certain items that can cause litter and harm to the environment.</p> <p>The company is committed to monitoring and reducing pests. They have a pest management plan that includes educating the community on pests and vulnerable species, as well as conducting bi-annual pest trapping. Additionally, they collaborate with neighboring properties to take care of the forest.</p>
