Disclosure Report
Date Submitted: July 18th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Energy-related companies

Topic	Electricity supplier with primary source from Renewable Energy
Summary of Issue	Reel is an electricity supplier that sells two electricity products to companies: electricity from Denmark's grid mix (which is approximately 79% renewable throughout the year) and electricity from new renewable energy projects via Power Purchase Agreements.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The total % of net revenue in 2024 originating from the delivery of renewable energy was 77%.
Impact on Stakeholders	The most affected community and their lived experiences have not been put at the centre of business efforts to address the climate emergency and build solutions together. The work is non-linear and hard, and must start from within each person. It's not only a professional journey, but should be a personal one, rooted in mindfulness, humility, and self-awareness.
Implemented Management Practices	<ul style="list-style-type: none"> • Reel is committed to prioritizing fairness, inclusivity, and respect in order to create positive and sustainable outcomes for all. • Reel is committed to understanding and addressing the impacts its direct operations may have on individuals and communities, particularly those that are already marginalized or vulnerable. Reel's direct operations are limited to those of a technology company, primarily involving office-based activities and software development. These operations do not have a material impact on marginalized or vulnerable individuals or communities. • As a provider of Power Purchase Agreements, Reel facilitates the expansion of solar and wind projects across Europe. Reel is committed to promoting responsible renewable energy development by working with energy developers that engage transparently with local communities, prioritise community participation throughout project design, and assess and mitigate potential environmental and social impacts on local communities.

	<ul style="list-style-type: none">• Reel publicly discloses its Scope 1, 2, and 3 emissions.• Reel provides customers with the means to calculate their Scope 2 emissions, in keeping with methodology from the Greenhouse Gas Protocol and peer-reviewed research on real-time matching of energy production and consumption. The sustainability reporting provided by Reel for customers thus reflects the real CO2 emission reductions generated by electricity procurement from Reel. This supports the sustainability objectives of Reel's customers
