

Green Mountain Power

Disclosure Report

Date Submitted: May 6th, 2025

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire

Industries and Products

	Yes	No
Please indicate if the company is involved in production or trade in any of the following. Select Yes for all options that apply.		
Animal Products or Services	☐	☒
Biodiversity Impacts	☐	☒
Chemicals	☐	☒
Disclosure Alcohol	☐	☒
Disclosure Firearms Weapons	☐	☒
Disclosure Mining	☐	☒
Disclosure Pornography	☐	☒
Disclosure Tobacco	☐	☒
Energy and Emissions Intensive Industries	☐	☒
Fossil fuels Gambling	☐	☒
Genetically Modified Organisms	☐	☒
Illegal Products or Subject to Phase Out	☐	☒
Industries at Risk of Human Rights Violations	☐	☒
Monoculture Agriculture	☐	☒
Nuclear Power or Hazardous Materials	☐	☒
Payday, Short Term, or High Interest Lending	☐	☒
Water Intensive Industries	☒	☐
Tax Advisory Services	☐	☒

Business in Conflict Zones	☐	☒
Child or Forced Labor	☐	☒
Negative Environmental Impact	☐	☒
Negative Social Impact	☐	☒
Other	☐	☒

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Water Intensive Industries

Green Mountain Power is involved in the production/sale of products or is part of an industry that can potentially be classified as water-intensive, meaning that they are more likely to have significant impacts on the environment, such as water stress or depletion of local water sources, if water use is not appropriately managed. Certified B Corps are required to make transparent their involvement in such activities or industries.

Any party aware of specific company practices that have had a negative impact related to its involvement in these or other controversial industries, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Litigation, Arbitration, Penalties, and/or Regulatory Complaints

Green Mountain Power reported having 10 litigations and penalties filed against the company related to the following issues: Property Damage, Injury, and Environmental issues. Those cases had repercussions in the last five years.

Legal disputes, arbitration, penalties, and regulatory complaints can adversely affect external stakeholders by disrupting customer service, causing uncertainty and financial negative impacts for suppliers and employees, and diminishing investor confidence. Additionally, these issues may damage the company's reputation and result in broader economic and regulatory repercussions. Certified B Corps must make their involvement in Litigation, Arbitration, Penalties, and Regulatory complaints transparent under their B Corp Profile.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: On-Site Fatality

Green Mountain Power has had one on-site fatality in the last five years. The company is responsible for ensuring they have enough practices and policies in place to prevent similar incidents from happening again. Certified B Corps are required to make transparent when such incidents have occurred.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Facilities located in sensitive ecosystems

Green Mountain Power reported having operational facilities adjacent to sensitive ecosystems in the past five years. Certified B Corps must make this transparent under their B Corp Profile.

Having operational facilities adjacent to sensitive ecosystems can impact the flora, fauna, and quality of the ecosystem (e.g., noise & light pollution from the facilities, spills, air/soil/water pollution owing to the company's operations). In addition to the environmental risks, there is a risk of negatively impacting the local communities.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other - Clients in Controversial and Ineligible Industries

Green Mountain Power might be currently involved or may have had involvement within the last five years in providing services and/or products to companies in the following industries considered controversial or ineligible by B Lab Global: Charity Lotteries, Debt Collection agencies in emerging markets, Mining, Nuclear Power, Pharmaceuticals, Recreational Marijuana, Fossil Fuels Production, Gambling, Offensive Firearms/Weapons/Defense, Pornography, Prisons and detention centers (including labor) and Tobacco/Nicotine/Vapes.

While products and services to these clients could serve only as commonplace goods and services for the companies, they could also be linked to the adverse impacts of their clients' industries and indirectly contribute to their negative impacts. Certified B Corps are required to make their involvement in such industries transparent.

Any party aware of specific company practices that have had a negative impact related to its involvement in these or other controversial industries, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).
