Disclosure Report

Date Submitted: November 17th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Operations located in Conflict Zones

Topic	Company has suppliers located in Conflict Zones
Summary of Issue	The company has one Tier 1 supplier located in Ukraine which is currently an active war zone. They supply the certifying company with some of their clothing.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	Less than 1% of expenses came from this supplier.
Impact on Stakeholders	<p>Business activities located in conflict zones are considered high-risk as they are more likely to cause or contribute to the conflict and/or sociopolitical instability.</p> <p>Countries classified as conflict zones are more likely to have a weak rule-of-law or a corrupt judicial system, which could undermine the effectiveness of operational grievance mechanisms for these businesses and their suppliers. In addition, the safety of the company's workers and other potential human rights violations are at risk.</p>
Implemented Management Practices	For their supplier in Ukraine, the company has audited to the best of their abilities under the current circumstances according to their due diligence requirements and those of their customers regarding human rights and OH&S. The due diligence included a blended monitoring audit conducted through remote document review, remote interviews and a remote tour of the premises. The subcontractor has also completed Higg FEM self assessment to evaluate environmental performance.
Management Comments	<p>To our understanding the purpose of the disclosure is to ensure that the company's business is not contrary to UN SDG targets 8.7, 16.1, 16.3, and 16.6.</p> <p>We have taken the necessary steps to do our due diligence regarding target 8.7. Targets on SDG 16 apply to national governments and we have no reason to believe that the Ukrainian government has been acting contrary to these targets, especially under the circumstances of an all out attack from an aggressor state.</p> <p>Even though we do take extra steps to make sure that</p>

	employment at our partner factory is fully respectful to human rights, we view our continuing cooperation with the subcontractor as commitment to responsible business conduct. We have worked to convince our customers to place orders at the factory as that has an overwhelmingly positive impact to the humanitarian situation on the local community, allowing workers who are mostly female to provide income for their families. Hence the workers can continue their lives at their homes within their community instead of emigrating to look for better economic circumstances elsewhere.
