Disclosure Report

Date Submitted: April 26th, 2024

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

B Lab's Public Complaints Process

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Labor Litigation

Issue Date	August 2020
Topic	Labor litigation, related to unlawful termination
Summary of Issue	Tech Superpowers has had one lawsuit filed by a former employee related to an unlawful termination. The employee had claimed that the company did not provide Post-Traumatic Stress Disorder (PTSD) accommodation.
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	The reported litigation was settled with a payment of more than 5% of the company's annual revenue for the year.
Impact on Stakeholders	The employee may have suffered an emotional distress and potential mental health complications
Resolution	The case was resolved with an out of court payment settlement.
Management Practices	As a result of the lawsuit, the CEO at the time was terminated. Tech Superpowers had hired Human Resource (HR) consultants to put in place better HR structures. Annual training of managers and staff has been put in place to mitigate similar occurrences.
Related Incidents (Yes/No)	There were no related incidents.
