

## DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must be transparent about the disclosure issues identified on the company's public B Impact Report.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

## **B Corp Certification - Disclosure Questionnaire Documentation**

**Disclosure Questionnaire category:** Clients in Controversial Industries

**Updated as of:** 07/06/2023

Reforest'Action is currently involved or has had involvement within the last five years in providing services and/or products to companies in the following industries considered controversial by B Lab Global: Alcohol and Pharmaceutical.

While products and services to clients in controversial industries could help mitigate potential negative impacts or serve only as commonplace goods and services for the companies, they also could have the potential to enable the growth of the industry and indirectly contribute to its negative impacts. Certified B Corps are required to make transparent their involvement in such industries.

Any party aware of specific company practices that have had a negative impact related to its involvement in these or other controversial industries, and which may constitute a violation of the B Corp standards, may contact us via our [public complaints procedure](#).

For more information about the company's practices, please visit the company's webpage/sustainability report, accessible [here](#).
