Disclosure Report

Date Submitted: October 24th, 2023

Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

Disclosure Questionnaire Statement

Disclosure Questionnaire Category: Other Disclosure Industries

Topic	Clients in Controversial Industries
Summary of Issue	Eiffel Investment Group is an asset management and corporate finance company offering financial needs to SMEs and midcaps through the provision of credit (bonds and private debt) or equity (listed and private equity, convertible bonds). The company has bond investments in companies operating in the Fossil Fuel (coal, oil sands) industry. Although the company still provides to clients in this industry, it decided to discontinue working in the future (when the bonds mature - 2028).
Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)	Investments in companies operating in the Fossil Fuel industry represent 0.3% of the company's portfolio (3 companies).
Impact on Stakeholders	<p>Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.</p> <p>B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.</p>
Implemented Management Practices	<p>Eiffel Investment Group is a Principles of Responsible Investment (PRI) signatory; committed to incorporating ESG issues into investment analysis and decision-making processes as well as in ownership policies and practices (more details on PRI below). The company is also committed to following a trajectory compatible with the Paris Agreements and requires all of their strategies to reach 2°C by 2040 in line with the SBTi recommendations for the financial sector. The company carries out a portfolio temperature measurement and in 2023 will establish a 2030 target based on a Linear Temperature reducing strategy to reach the 2040 target.</p> <p>Eiffel assists its clients and teams in transitions (Eiffel Energy Transition); raising awareness on ESG issues of the funded companies and stakeholders, implementing concrete CSR action plans and ongoing improvements.</p>

	<p>The company measures and monitors controversy of potential and current clients, taking into consideration ESG factors. This process is overseen by an ESG committee and in the case of controversy being of critical severity Eiffel sells investments. In the case that divestment cannot be immediate, stronger commitments are required from the issuer.</p> <p>In addition, Eiffel has a sector exclusion policy in place with either complete exclusion for investments in clients that do not comply with international conventions (UN Global Compact), Recreational Cannabis, Pornography & Prostitution, Fossil Fuel Energy (unconventional oil and gas), controversial weapons, clients producing or distributing GMOs. In addition the company has established industry specific thresholds for exclusion scenarios, invested with vigilance, such as conventional weapons, conventional gas, pulp paper, palm oil, fishing, fur & Exotic skin as well as companies carrying out animal testing. The company includes in its exclusion policy a commitment to Phase out 10% by 2023 and total exclusion by 2025. Details of exclusion policy available in Eiffel Investment Group Strategy plan (link below).</p>
