

DISCLOSURE MATERIALS

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire and B Lab deems them to be material, the company must:

- 1) Be transparent about the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue.
- 3) Demonstrate that management systems are in place to avoid similar issues from arising in the future.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to background checks by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.

B Corp Certification - Disclosure Questionnaire Documentation

PROVIDED BY: Hallam-ICS UPDATED AS OF: 12/17/2023

DISCLOSURE QUESTIONNAIRE CATEGORY	Clients in controversial industries
TOPIC	Clients in alcohol, fossil fuel, mining and prison industries
SUMMARY OF ISSUE	Hallam-ICS is a US-based engineering company with clients in the alcohol, fossil fuel, mining and prison industries.
	For their alcohol clients, the company provides engineering support for the installation of a digester and solutions for their bottling lines.
	For their fossil fuel clients, the company provides control system support.
	For their mining client, the company provides engineering support for a variety of projects at their clients' facilities, ranging from electrical system upgrades to conveyors or HVAC.
	For their prison client, the company has provided in the past control systems for their building and facility systems (boilers, chillers, HVAC).
SIZE/SCOPE OF ISSUE (e.g. \$ financial implication, # of individuals affected)	In the FY2022, the total revenue coming from controversial clients was of 1.6%. The company does not provide services to the prison industry since 2020 and the company shared that they do not intend to work with this industry again in the future.
IMPACT ON STAKEHOLDERS	Companies that work with clients in controversial industries can indirectly increase the harmful impact to stakeholders by enabling business growth. Therefore, companies that work with clients in these industries should have practices in place to ensure that their impact is aimed at decreasing the negative impacts of the industry.
	B Lab has flagged the involvement of companies with clients in controversial industries as a material issue and new standards will be created to address possible risks related to this matter.
IMPLEMENTED MGT PRACTICES	Hallam-ICS does not have a formal screening for their clients in controversial industries, but evaluate all client/project opportunities before accepting contracts.
	In sales meetings or in go/no-go discussions, Hallam-ICS review potential opportunities with new and existing clients to understand the work that is being requested. Topics discussed may include the impact the project will have on their clients, people, and the environment.
