## Disclosure Materials

Certified B Corporations must complete a Disclosure Questionnaire to identify potentially sensitive issues related to the company (e.g. historical fines, sanctions, material litigation, or sensitive industry practices).

This component does not affect the company's score on the B Impact Assessment. If the company answers affirmatively to any items in the Disclosure Questionnaire that B Lab deems relevant for public stakeholders, then, as a condition of their certification, the company must:

- 1) Be transparent about details of the disclosure issues identified on the company's public B Impact Report
- 2) Describe how the company has addressed this issue
- 3) Demonstrate that management practices are in place to avoid similar issues from arising in the future, when necessary.

In all cases, the Standards Advisory council reserves the right to refuse certification if the company is ultimately deemed not to uphold the spirit and integrity of the community.

In addition to the voluntary indication of sensitive issues in the Disclosure Questionnaire, companies pursuing Certification also are subject to a background check by B Lab staff. Background checks include a review of public records, news sources, and search engines for company names, brands, executives/founders, and other relevant topics.

Sensitive issues identified through background checks may or may not be within the scope of questions in the Disclosure Questionnaire, but undergo the same review process and are subject to the same possible review by the Standards Advisory Council, including ineligibility for B Corp Certification, required remediation, or disclosure.

### **B Lab's Public Complaints Process**

Any party may submit a complaint about a current B Corp through [B Lab's Public Complaint Process](#). Grounds for complaint include:

- 1) Intentional misrepresentation of practices, policies, and/or claimed outcomes during the company's [certification process](#)
- 2) Breaches of the B Corp Community's core values as expressed in our [Declaration of Interdependence](#)

**This document contains a copy of the company's completed Disclosure Questionnaire and related disclosure documentation provided by the company.**

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Tax Reduction Through Corporate Structure

<b>Topic</b>	Corporate Shell registered in the Cayman Islands and in Delaware, in the United States
<b>Summary of Issue</b>	<p>The ultimate parent entity of Petlove's group in the B Corp certification scope is based in the Cayman Islands. Petsupermarked Holdings, LLC is registered in Delaware, in the United States. Its parent - Petlove Cayman Ltd. - is based in the Cayman Islands. All Petlove's staff and operations are based in Brazil.</p> <p>Entities in the Cayman Islands and in the US do not conduct operational activities, generate revenue, have employees, and not generate taxable income or income tax payments. Their existence is explained based on corporate governance reasons and capital markets objectives. The company informs that they are in place to support a potential future IPO in the United States, and to align the company's corporate structure with commonly adopted standards for U.S.-listed companies.</p>
<b>Size/Scope of Issue (e.g. \$ financial implication, # of individuals affected)</b>	The company currently pays approximately 7.84% of their earnings in taxes. As all taxable income is generated in Brazil, this effective tax rate reflects the applicable Brazilian tax framework and the company's operational structure.
<b>Impact on Stakeholders</b>	In addition to the many different aspects of value that business provides society, business has an obligation to contribute its share of taxes. This is because business exists within the context of society; its proper role is to serve society, not the other way around. Moreover, healthy businesses can only exist over the long term in a healthy society. A healthy society depends upon public expenditures made possible by taxes.
<b>Implemented Management Practices</b>	The company implemented a formal Ethics and Compliance Committee, which includes independent advisors and board-level oversight. Tax matters and structural decisions are periodically reviewed within this governance framework to ensure adherence to legal requirements, ethical standards, and the company's broader commitment to responsible business practices.

<b>Other Management Comments</b>	<p>Petlove's profits are reported and taxed in Brazil in accordance with local income tax legislation. No transfer pricing mechanisms, intellectual property licensing schemes, intercompany financing arrangements, or profit-shifting strategies are implemented through these entities for tax optimization purposes. In addition, Petlove's consolidated financial statements are subject to annual independent audits conducted by a Big Four accounting firm, providing assurance over financial reporting, tax positions, and compliance with applicable accounting and tax regulations.</p> <p>Petlove is committed to tax compliance, transparency, and responsible corporate citizenship. The company recognizes the fundamental role taxation plays in supporting public goods and sustainable economic development and remains committed to ensuring that profits are taxed where economic activity and value creation occur.</p>

# Disclosure Questionnaire Statement

## Disclosure Questionnaire Category: Litigation, Arbitration, Penalties, and/or Regulatory

Petlove reported having two material litigation cases filed against the company related to the following issues: Labor, contract disputes, and the recognition of an employment relationship with individuals providing services. Those cases had repercussions in the last five years.
